NOUN-NOU107: STUDY GUIDE FOR THE DISTANCE LEARNER - SUMMARY

MODULE 1: INTRODUCTION TO THE OPEN AND DISTANCE LEARNING (ODL) SYSTEM
UNIT 1: HISTORY OF THE OPEN AND DISTANCE LEARNING SYSTEM

Open and Distance Learning (ODL) combines two complementary educational concepts: _____ and _____.

Distance education and open learning

According to the Commonwealth of Learning (2015), Open and Distance Learning is a system of teaching and learning in which the teacher and learner are separated by _____.

Time, space, or both

Instruction in Open and Distance Learning is delivered through _____.

Multiple media

Open and Distance Learning encourages _____ communication.

Two-way

Open and Distance Learning may include occasional face-to-face interactions such as _____ and _____.

Tutorials and learner collaboration

The earliest stage in the development of distance education is the _____.

Correspondence Stage

The following are the three major stages in the development of distance education:

1. **Correspondence Stage**
2. **Sound and Video Signal Stage**
3. **Computer Technology Stage**

The major limitations of correspondence education included:

1. **Slow communication**
2. **Delayed feedback**
3. **Limited interaction between learners and instructors**

The second phase in the development of distance education is the _____.

Sound and Video Signal Stage

The Sound and Video Signal Stage was made possible particularly by the educational use of _____ and _____.

Radio and television

The foundation for educational radio was laid during the _____.

First World War

09163490176

In _____ the National University Extension Association, operating through the University of Wisconsin, began exploring the use of radio for educational purposes.

1916

The first educational radio broadcast was transmitted in _____.

1916

Educational radio became widespread in many parts of the world by _____.

1925

Between _____ and _____, the State University of Iowa and Kansas State College produced some of the earliest educational television programmes.

1932 and 1934

In Nigeria, the Nigerian Broadcasting Corporation introduced the English by Radio programme in _____.

1960

The English by Radio programme was introduced to improve _____ among Nigerians.

Language learning

The third major phase in the development of distance education is the _____.

Computer Technology Stage

The Computer Technology Stage was characterised by the introduction of:

1. **Computers**
2. **Satellite communication**
3. **The Internet**

Rapid technological advancements in the _____ ushered in a new era of distance education.

1980s

The widespread adoption of the Internet and World Wide Web occurred in the _____.

1990s

Learning Management Systems are used to:

1. **Organise course content**
2. **Administer assessments**
3. **Facilitate discussions**
4. **Monitor learners' progress**

NOUN uses the following digital technologies to support teaching and learning:

1. **Learning Management System**
2. **E-courseware**
3. **Online facilitation**
4. **Electronic assignments**
5. **Computer-Based Tests (CBTs)**
6. **Digital library services**

Open learning gained prominence during the _____.

1970s

Open learning provides learners with greater flexibility in _____.

How, when and where they study

09163490176

The philosophy of open learning provides learners with choices in:

1. **The medium or media of learning**
2. **The place of study**
3. **The pace of learning**
4. **Learner support mechanisms**
5. **Entry and exit opportunities**

The combination of open learning and distance education resulted in _____.

Open and Distance Learning

A significant milestone in the development of ODL was the establishment of The Open University in the United Kingdom in _____.

1969

Athabasca University in Canada was established in _____.

1970

Spain's National University of Distance Education (UNED) was established in _____.

1972

FernUniversität in Hagen, Germany, was established in _____.

1974

According to Jegede (2016), Asia has _____ tertiary Open and Distance Learning institutions.

41

Of the 41 tertiary ODL institutions in Asia, only _____ are privately owned.

Five

India alone accounts for _____ ODL institutions.

17

The policy that provided the foundation for the development of Open and Distance Learning in Nigeria was the _____.

National Policy on Education (1977)

University College, Ibadan, in collaboration with the University of Oxford, introduced extra-mural studies in _____.

1947

Popular correspondence colleges used by Nigerians included:

1. **Rapid Results College**
2. **Wolsey Hall**

Ahmadu Bello University established the University of the Air in _____.

1972

The University of the Air was later used to support the Teachers' In-Service Education Programme in _____.

1975

The University of Lagos established the Correspondence and Open Studies Unit (COSU) in _____.

1974

09163490176

COSU later became the _____.

Correspondence and Open Studies Institute (COSIT)

COSIT is now known as the _____.

Distance Learning Institute (DLI)

The University of Lagos became the first Nigerian university to operate a _____ system.

Dual-mode

The idea of establishing a national open university in Nigeria was first conceived in _____.

1976

The Presidential Planning Committee for the establishment of an open university was inaugurated on _____.

1 May 1980

The Presidential Planning Committee was chaired by _____.

Professor Afolabi Ojo

The Open University Act was passed by the National Assembly on _____.

20 April 1983

The Open University Bill was signed into law on _____.

22 July 1983

The President who signed the Open University Bill into law was _____.

Alhaji Shehu Shagari

The first Vice-Chancellor of the Nigeria Open University was _____.

Professor Afolabi Ojo

The Nigeria Open University commenced admission and screening of students in _____.

1984

The Nigeria Open University was suspended on _____.

25 April 1984

The administration that suspended the Nigeria Open University was headed by _____.

Major General Muhammadu Buhari

The National Open University of Nigeria was re-established in _____.

2002

NOUN was re-established during the administration of _____.

President Olusegun Obasanjo

The Commonwealth of Learning partnered with NOUN to establish RETRIDOL in _____.

2003

RETRIDOL means _____.

Regional Training and Research Institute for Distance and Open Learning

RETRIDOL was established through a partnership between NOUN and _____.

Commonwealth of Learning (COL)

Nigeria's only single-mode Open and Distance Learning university is _____.

National Open University of Nigeria (NOUN)

The major reasons for the growth of Open and Distance Learning in Nigeria include:

1. **Limited admission capacity of conventional universities**

09163490176

2. **Continuous demand for higher education**
3. **The need for lifelong learning**

Lifelong learning recognises that education is a _____ process that extends beyond formal schooling.

Continuous

Open and Distance Learning is particularly suitable for working adults because it allows them to _____.

Further their education while remaining in employment

UNIT 2: CHARACTERISTICS OF THE OPEN AND DISTANCE LEARNING SYSTEM

The major characteristics of Open and Distance Learning include:

1. **Separation of teacher and learner**
2. **Openness**
3. **Flexibility**
4. **Accessibility**
5. **Affordability**
6. **Technological support**
7. **Use of mixed media courseware**
8. **Interactivity**
9. **Learner-centredness**

Teachers and learners in Open and Distance Learning are separated by _____.

Time, place or both

Openness is the _____ philosophy of Open and Distance Learning.

Central

According to Kanwar (2015), openness in ODL can be understood in three major dimensions:

1. **Openness to people**
2. **Openness to place**
3. **Openness to ideas**

Openness to people focuses on _____.

Widening access to higher education

Openness to place means learning is no longer restricted to the _____.

Physical campus or classroom

Under openness to place, learners can study:

1. **At home**
2. **In the workplace**
3. **While travelling**

Openness to ideas promotes the free _____ of educational resources.

Sharing, adaptation and improvement

The concept of Open Content was introduced by _____.

David Wiley

David Wiley introduced the concept of Open Content in _____.

09163490176

1998

Open Content refers to educational materials that can be:

1. **Reused**
2. **Revised**
3. **Remixed**
4. **Redistributed legally**

The Open Content movement contributed to the development of _____ and _____.

Open Educational Resources (OER) and Massive Open Online Courses (MOOCs)

Flexibility in Open and Distance Learning can be examined in three areas:

1. **Time**
2. **Place**
3. **Pace**

Flexibility in time allows learners to decide _____.

When it is most convenient for them to study

ODL learners enjoy flexibility by choosing _____.

When, where and at what pace to study

Learning activities that do not require learners and instructors to participate at the same time are called _____ learning.

Asynchronous

Accessibility makes higher education available to persons disadvantaged because of:

1. **Location**
2. **Occupation**
3. **Physical condition**
4. **Gender**
5. **Economic circumstances**

Three groups that have benefited from ODL accessibility in Nigeria are:

1. **Persons in correctional centres**
2. **Women restricted by cultural or family responsibilities**
3. **Persons with visual impairment**

NOUN provides selected course materials in _____ to support visually impaired learners.

Braille

A study by Rupanda and Nyenya (2014) found that _____% of respondents considered ODL affordable.

90%

NOUN promotes affordability by allowing learners to:

1. **Pay compulsory charges first and complete other approved fees within the registration period**
2. **Register for the minimum approved credit load and complete programmes gradually**
3. **Use university-provided course materials**
4. **Register at study centres close to their homes or workplaces**

09163490176

Modern Open and Distance Learning is _____ driven.

Technologically

Fourth-generation distance education includes:

1. **E-learning**
2. **M-learning**
3. **U-learning**

ICT allows learners greater control over _____.

How, when and where they learn

Mixed media courseware refers to the use of a combination of _____.

Instructional media

The mixed media used in ODL include:

1. **Print**
2. **Radio**
3. **Television**
4. **Audio**
5. **Video**
6. **Computer-based instruction**
7. **Telecommunications**

Instructional media may be _____ or _____.

Synchronous or asynchronous

Instructional media may also be _____ or _____.

Interactive or non-interactive

Interactivity addresses the problem of limited physical contact between _____.

Learners and instructors, and among learners themselves

The four major types of interaction in ODL are:

1. **Learner-to-content interaction**
2. **Learner-to-instructor interaction**
3. **Learner-to-learner interaction**
4. **Learner-to-technology interaction**

When a learner studies a course module, watches an instructional video or completes an online learning activity, _____ interaction is taking place.

Learner-to-content interaction

Communication between learners and their facilitators or instructors is called _____.

Learner-to-instructor interaction

Learner-to-instructor interaction provides:

1. **Guidance**
2. **Encouragement**
3. **Clarification**
4. **Feedback**

Interaction in which learners communicate and collaborate with one another is called _____.

09163490176

Learner-to-learner interaction

Learner-to-learner interaction encourages:

1. **Participation**
2. **Constructive feedback**
3. **Teamwork**
4. **Knowledge sharing**

Learner-to-technology interaction is also referred to as _____.

Learner-to-interface interaction

Technology serves as the bridge connecting learners with:

1. **Instructors**
2. **Course content**
3. **Fellow learners**

In a learner-centred approach, learners actively participate in _____.

Constructing their own knowledge

Learner-centredness in NOUN is demonstrated through:

1. **Self-instructional course materials**
2. **Online facilitation**
3. **Discussion forums**
4. **Tutor-Marked Assignments (TMAs)**
5. **Self-assessment exercises**
6. **Independent study**

In the teacher-centred approach, communication flows mainly from _____.

The teacher to the learners

The learner-centred approach encourages interaction among _____.

The teacher, learners and learning resources

MODULE 1: INTRODUCTION TO THE OPEN AND DISTANCE LEARNING (ODL) SYSTEM

UNIT 3: TEACHING AND LEARNING IN THE OPEN AND DISTANCE LEARNING SYSTEM

Teaching and learning in ODL take place within a carefully designed _____.

Learning environment

The ODL learning environment combines:

1. **Physical and virtual spaces**
2. **Instructional resources**
3. **Technology**
4. **Learner support services**

According to Hall (2001), a _____ is software designed as an all-in-one solution that can facilitate online learning for an organisation.

Learning environment

A learning environment allows learners to:

1. **Register for courses**
2. **Access learning resources**

09163490176

3. **Participate in learning activities**
4. **Submit assignments**
5. **Communicate with facilitators and other learners**
6. **Monitor their academic progress**

Most learning environments include:

1. **Self-instructional materials**
2. **Discussion forums**
3. **Online assessments**
4. **Multimedia resources**
5. **Tools for creating and managing learning activities**

The learning environment has been described as the _____ because it significantly influences how learning takes place.

Third teacher

According to Fraser (2012), learning environments extend beyond physical classrooms to include _____ conditions.

Social, technological and psychological

A well-designed learning environment encourages:

1. **Interaction**
2. **Collaboration**
3. **Critical thinking**
4. **Creativity**
5. **Independent learning**

Contemporary ODL learning environments include:

1. **Digital libraries**
2. **Video conferencing platforms**
3. **Mobile learning applications**
4. **Virtual classrooms**
5. **E-books**
6. **Social learning platforms**
7. **Cloud-based collaboration tools**

Technology replaces the teacher in Open and Distance Learning.

False

Technology serves as a _____ that enables teachers to create engaging learning experiences and support learners.

Tool

The three major roles of a teacher in Open and Distance Learning are:

1. **Creator and Manager of the Learning Environment**
2. **Instructor**
3. **Facilitator**

The role of the teacher has shifted from being the sole source of knowledge to becoming a _____.

09163490176

Partner in the learning process

According to Muirhead (2001), the teacher's role changes from that of an information transmitter to that of a _____.

Guide

The teacher as creator and manager of the learning environment performs the following functions:

1. **Designs learning activities**
2. **Selects appropriate instructional resources**
3. **Facilitates online discussions**
4. **Monitors learners' progress**
5. **Provides constructive feedback**

_____ describes the ODL teacher as a tour guide.

Bull (2013)

According to Berge (1995), the teacher is responsible for:

1. **Keeping discussion on track**
2. **Contributing expert knowledge and insights**
3. **Connecting different discussion threads and course components**
4. **Maintaining a positive and collaborative learning atmosphere**

As an instructor, the teacher provides:

1. **Academic guidance**
2. **Instruction**
3. **Clarification of difficult concepts**
4. **Feedback**
5. **Assessment of learners' progress**

At the beginning of a course, an ODL instructor should clearly explain:

1. **Course expectations**
2. **Learning outcomes**
3. **Assessment requirements**
4. **Study schedule**

ODL instructors may communicate with learners through:

1. **Discussion forums**
2. **Emails**
3. **Virtual classrooms**
4. **Webinars**
5. **Video conferencing platforms**
6. **Telephone calls**

In NOUN, facilitators perform the instructional role by:

1. **Guiding learners during online facilitation**
2. **Explaining course concepts**
3. **Responding to academic enquiries**
4. **Providing feedback on Tutor-Marked Assignments**

09163490176

5. **Supporting learners throughout their courses**

A facilitator simply transmits knowledge to learners.

False

The facilitator creates opportunities for learners to _____ in the learning process.

Participate actively

A facilitator encourages learners to:

1. **Ask questions**
2. **Exchange ideas**
3. **Solve problems collaboratively**
4. **Learn from one another**

The learner is at the _____ of the teaching and learning process in ODL.

Centre

ODL learners are expected to take greater _____ for their own learning.

Responsibility

ODL learners are expected to:

1. **Study independently**
2. **Participate actively in learning activities**
3. **Communicate effectively with facilitators and fellow learners**
4. **Make appropriate use of available learning resources**

The three demographic variables examined for ODL learners are:

1. **Gender**
2. **Age**
3. **Employment status**

According to Adewale's (2014) study at Lagos Study Centre, _____% of respondents were male.

40%

According to the same study, _____% of respondents were female.

60%

The age distribution of learners in Adewale's study was:

1. **16–20 years — 5%**
2. **21–30 years — 40%**
3. **31–40 years — 25%**
4. **41–50 years — 20%**
5. **51 years and above — 10%**

The largest proportion of learners in the study belonged to the _____ age group.

21–30 years

Gao (2012) reported that many ODL learners are young adults between _____ years.

21 and 40

According to Adewale's study, _____% of learners were unemployed.

30%

_____% of the learners were self-employed.

09163490176

24.8%

_____% of the learners were employed.

45.2%

Approximately _____% of the learners were either employed or self-employed.

70%

ODL enables learners to continue their employment while pursuing _____.

Academic qualifications

Successful ODL learners are expected to possess the following characteristics:

1. **Independence and collaboration**
2. **Motivation**
3. **Adaptation to technology**
4. **Discipline**
5. **Active participation**
6. **Effective communication**
7. **Reflective skills**

ODL learners are independent because they are expected to take responsibility for _____ their own learning activities.

Planning, organising and monitoring

Independent learning means that ODL learners should study in isolation.

False

Modern communication technologies have enabled _____ learning in ODL.

Collaborative

Collaborative learning can take place through:

1. **Discussion forums**
2. **Virtual classrooms**
3. **Group assignments**
4. **Social media learning communities**
5. **Other online communication platforms**

Motivation is one of the most important characteristics of successful _____ learners.

Open and Distance Learning

Most ODL learners are _____ motivated because they enrol with clear educational, professional or personal goals.

Intrinsically

Learners can maintain motivation by:

1. **Setting realistic study goals**
2. **Celebrating small achievements**
3. **Maintaining regular study schedules**
4. **Staying connected with classmates and facilitators**
5. **Remembering the reasons they enrolled**

_____ forms the backbone of modern Open and Distance Learning.

Technology

09163490176

Technology in ODL is used for:

1. **Admission**
2. **Course registration**
3. **Accessing course materials**
4. **Online discussions**
5. **Submitting TMAs**
6. **Taking computer-based tests**
7. **Communicating with facilitators and fellow learners**

Successful distance learners must possess _____ because instructors are not physically present during most learning activities.

Self-discipline

Self-directed behaviours required of online learners include:

1. **Self-discipline**
2. **Self-monitoring**
3. **Self-initiative**
4. **Self-management**

Self-discipline helps learners:

1. **Avoid procrastination**
2. **Maintain regular study habits**
3. **Balance academic, work and family responsibilities**

Practical ways of developing self-discipline include:

1. **Preparing a personal study timetable**
2. **Setting realistic weekly learning goals**
3. **Monitoring progress regularly**
4. **Completing assignments before deadlines**

Active participation means:

1. **Contributing meaningfully to online discussions**
2. **Participating in tutorials**
3. **Completing learning activities**
4. **Asking questions**
5. **Collaborating with fellow learners**

Simply reading discussion posts without contributing provides _____ learning benefits.

Limited

Effective communication in ODL requires learners to communicate ideas clearly, _____ and _____.

Respectfully and professionally

Dabbagh (2007) describes constructive communication abilities as _____ or _____ skills.

Discursive or dialogical

Netiquette means _____.

The acceptable standards of behaviour when communicating online

Learners observing netiquette should:

09163490176

1. **Be polite**
2. **Be respectful**
3. **Be professional**
4. **Avoid offensive language**
5. **Respect different opinions**
6. **Write clearly**
7. **Contribute positively to discussions**

_____ enable learners to think critically about what they have learned and evaluate their progress.

Reflective skills

According to Dabbagh (2007), reflective skills are the ability to engage in regular and meaningful consideration of one's _____.

Learning process and outcomes

Reflective activities may include:

1. **Learning journals**
2. **Online blogs**
3. **Reflective essays**
4. **Personal study notes**

Reflective skills promote _____ learning.

Lifelong

Which characteristic enables an ODL learner to manage study activities without constant supervision?

Independence and self-discipline

Netiquette refers to ethical behaviour and proper communication in online environments.

True

Reflective skills help learners evaluate their learning and identify areas for improvement.

True

MODULE 2: STUDY SKILLS FOR THE DISTANCE LEARNER

UNIT 1: LISTENING

_____ is one of the four fundamental language skills and an indispensable study skill.

Listening

As a student, listening is considered your _____ medium of learning.

Primary

Effective listening helps learners:

1. **Understand ideas accurately**
2. **Identify key concepts**
3. **Participate meaningfully in learning activities**

_____ is the passive reception of sound.

Hearing

_____ is an active mental process involving attention, interpretation, evaluation and response.

09163490176

Listening

Academic listening requires:

1. **Concentration**
2. **Critical thinking**
3. **Active engagement**

Listening differs from hearing because listening requires paying attention, interpreting messages, evaluating information and responding appropriately.

True

The strategies for efficient listening include:

1. **Stop talking and pay attention**
2. **Maintain eye contact with the speaker**
3. **Empathise with the speaker**
4. **Remove physical and mental distractions**
5. **Be alert to non-verbal cues**
6. **Take notes**

The first step towards effective listening is to _____.

Stop talking and give the speaker full attention

Maintaining eye contact provides an opportunity to observe:

1. **Facial expressions**
2. **Gestures**
3. **Other non-verbal cues**

Empathising with a speaker requires the listener to have an _____.

Open mind

Examples of distractions that can reduce effective listening include:

1. **Noise**
2. **Mobile phone notifications**
3. **Fatigue**
4. **Anxiety**
5. **Unrelated thoughts**

Facial expressions, gestures, posture, tone of voice and body language are examples of _____.

Non-verbal cues

Taking notes helps learners:

1. **Identify key ideas**
2. **Organise information**
3. **Improve long-term retention**

The four major types or purposes of listening are:

1. **Active or Attentive Listening**
2. **Critical or Analytical Listening**
3. **Empathic or Therapeutic Listening**
4. **Appreciative Listening**

09163490176

Listening carefully with the intention of understanding the speaker's message is _____.

Active or Attentive Listening

_____ listening involves evaluating, analysing and judging information being presented.

Critical or Analytical Listening

Critical listening is useful when:

1. **Evaluating research findings**
2. **Participating in academic debates**
3. **Comparing different viewpoints**

Listening to understand another person's feelings, emotions and experiences is _____.

Empathic or Therapeutic Listening

Listening for enjoyment, inspiration or personal satisfaction is _____.

Appreciative Listening

Music, storytelling, poetry, documentaries and motivational talks may involve _____ listening.

Appreciative

The major advantages of learning through listening include:

1. **Increased academic understanding**
2. **Improved communication skills**
3. **Ability to block out distractions**
4. **Increased retention**
5. **Large vocabulary development**

Effective listening enables learners to connect new information with _____.

Existing knowledge

Intensive listening improves the ability to absorb and _____ information during communication.

Transmit

A good listener develops a greater ability to process, understand and _____ information.

Retain

Retention can be enhanced by:

1. **Note-taking**
2. **Asking questions**
3. **Summarising key points**
4. **Reviewing notes after a lecture**

Active listening exposes learners to new:

1. **Words**
2. **Expressions**
3. **Ideas**

The major barriers to effective listening include:

1. **Physical barriers**
2. **Physiological barriers**
3. **Psychological barriers**

09163490176

4. **Linguistic barriers**
5. **Perceptual barriers**

Hearing impairment and a noisy environment are examples of _____ barriers.

Physical

Illness, tiredness and sleepiness are examples of _____ barriers.

Physiological

Anxiety, preoccupation, egocentrism and prejudice are examples of _____ barriers.

Psychological

Specialised language, unfamiliar words, jargon, complex sentences and inappropriate pace of speech are _____ barriers.

Linguistic

_____ barriers occur when the speaker and listener view the same situation from different perspectives.

Perceptual

The five essential components of listening are:

1. **Hearing or Receiving**
2. **Comprehending or Understanding**
3. **Remembering**
4. **Evaluating**
5. **Responding or Feedback**

_____ refers to the physical response process of receiving sound filtering into the ears.

Hearing or Receiving

At the _____ stage, the listener understands the speaker's verbal message and unspoken cues.

Comprehending or Understanding

Comprehension is influenced by:

1. **Background**
2. **Previous knowledge**
3. **Perception**
4. **Experience**

Storing an understood message in memory to enable future recall is _____.

Remembering

Judging or deciding the value of information received is _____.

Evaluating

_____ helps the speaker determine whether the message has been received.

Feedback

Feedback may be given _____ and/or _____.

Verbally and nonverbally

The four steps to becoming an effective listener are:

1. **Be prepared to listen**
2. **Concentrate on the speaker's content and context**

09163490176

3. **Ask questions when the time is right**
4. **Take notes**

Having pre-knowledge of a topic helps the listener construct a _____ of where the speaker is going.

Mental outline

Asking questions during listening helps to:

1. **Obtain clarification**
2. **Find out more**
3. **Test understanding**

_____ is a study activity involving writing down information given by another through speech.

Note-taking

Research shows that note-taking can positively affect a student's ability to _____ information for a longer period.

Retain

The major note-taking methods discussed include:

1. **Linear notes**
2. **Cornell Method**
3. **Outline Method**
4. **Mapping Method**
5. **Charting Method**
6. **Sentence Method**

The Cornell Method uses _____ unequal columns.

Two

In the Cornell Method, the narrow left side is used for _____.

Cues or keywords/concepts

In the Cornell Method, the wider right side is used for _____.

Short descriptions, notes and ideas learnt

The lower part of a Cornell note page is used for _____.

Summarising the information

The _____ Method uses dashes, indentation, numbering or bullet points to organise topics and sub-topics.

Outline

The _____ Method provides a graphic representation of ideas and concepts.

Mapping

The _____ Method uses a table of rows and columns for comparison or contrast.

Charting

The _____ Method requires every topic or new thought to be written on separate, often numbered, lines.

Sentence

Which type of listening involves evaluating the accuracy and credibility of information?

09163490176

Critical listening

Which note-taking method organises ideas around a central concept using branches?

Mapping Method

Physical noise can be overcome by _____.

Studying or listening in a quiet environment

Fatigue can be reduced by _____.

Getting enough rest before lectures or study sessions

Language difficulty can be addressed by _____.

Asking questions or looking up unfamiliar terms

Mobile device distractions can be reduced by _____.

Silencing notifications and focusing on the learning activity

UNIT 2: SPEAKING

_____ is one of the key study skills that support effective learning.

Speaking

Good speaking skill is the ability to communicate thoughts and ideas _____ to an audience.

Clearly, confidently and appropriately

Speaking is limited to formal presentations.

False

Speaking enables ODL learners to:

1. **Seek clarification**
2. **Share ideas**
3. **Participate actively in discussions**
4. **Build productive relationships with facilitators and fellow learners**

The following practices help a learner become an effective speaker:

1. **Know, anticipate and engage your audience**
2. **Have a clear purpose**
3. **Prepare thoroughly**
4. **Use appropriate language**
5. **Emphasise key ideas**
6. **Make your speech conversational**

Understanding your audience helps you choose appropriate:

1. **Examples**
2. **Vocabulary**
3. **Explanations**

Every speech or presentation should have a clear _____.

Purpose

Preparation for speaking includes:

1. **Gathering relevant information**
2. **Organising key points**
3. **Practising delivery**
4. **Preparing supporting materials where necessary**

09163490176

Effective speakers should strive for _____ rather than complexity.

Clarity

Effective speakers communicate naturally rather than sounding as though they are _____.

Reading directly from a script

The three major types of speaking are:

1. **Informative speaking**
2. **Persuasive speaking**
3. **Entertainment speaking**

_____ speaking is meant to inform the listener.

Informative

Informative speaking involves sharing factual knowledge by:

1. **Describing**
2. **Demonstrating**
3. **Explaining**

Informative speaking educates the audience without _____.

Personal bias

A facilitator explaining a difficult concept during a virtual tutorial is practising _____.

Informative speaking

Informative speaking requires the speaker to persuade the audience to accept a particular opinion.

False

_____ speaking attempts to change or reinforce listeners' beliefs, values, attitudes or opinions.

Persuasive

Persuasive arguments may be supported with:

1. **Facts**
2. **Statistics**
3. **Examples**
4. **Personal experiences**
5. **Expert opinions**
6. **Testimonies**

The main objective of persuasive speaking is to influence the audience to _____.

Accept a particular point of view or take a specific course of action

Academic debates are examples of _____ speaking.

Persuasive

_____ speaking is designed to help an audience relax and enjoy an occasion while communicating a meaningful message.

Entertainment

Entertainment speaking may combine:

1. **Humour**
2. **Storytelling**

09163490176

3. **Interesting experiences**
4. **Real-life illustrations**

Entertainment speaking is common during:

1. **Ceremonies**
2. **Social gatherings**
3. **Award presentations**
4. **Orientation programmes**
5. **Special events**

A Master of Ceremonies at a university event is likely to practise _____ speaking.

Entertainment

The common challenges associated with speaking include:

1. **Inhibition or anxiety**
2. **Lack of knowledge of subject matter**
3. **Accents or mother tongue interference**

Fear of making mistakes, forgetting what to say or being criticised may lead to _____.

Inhibition or anxiety

A learner who does not understand a topic may find it difficult to:

1. **Organise ideas**
2. **Answer questions**
3. **Provide meaningful contributions**

The key to overcoming lack of knowledge of subject matter is _____.

Adequate preparation

Ways of improving knowledge of a subject before speaking include:

1. **Reading relevant course materials**
2. **Consulting additional learning resources**
3. **Taking notes**
4. **Reviewing important concepts**

Mother tongue interference may affect:

1. **Pronunciation**
2. **Intonation**
3. **Stress patterns**
4. **Choice of words**
5. **Fluency**

The goal in addressing mother tongue interference is not to eliminate one's natural accent completely but to ensure speech is _____.

Clear, accurate and easily understood

Ways of reducing mother tongue interference include:

1. **Regular practice**
2. **Listening to proficient speakers**
3. **Using English consistently in academic discussions**
4. **Reading aloud**

09163490176

5. **Participating in tutorials**
6. **Joining study groups**
7. **Seeking constructive feedback**

The four essential components of speaking are:

1. **Grammar**
2. **Vocabulary**
3. **Pronunciation**
4. **Fluency**

_____ refers to the rules governing how words are arranged to form meaningful sentences.

Grammar

Correct grammar helps speakers communicate ideas _____ and _____.

Clearly and accurately

_____ refers to the stock of words an individual knows and uses in communication.

Vocabulary

A good vocabulary enables a speaker to select _____ words for different situations and audiences.

Appropriate

Vocabulary can be developed by:

1. **Reading widely**
2. **Listening to academic discussions**
3. **Using dictionaries**
4. **Learning meanings of new words**
5. **Applying new words appropriately**

_____ is the way a word is spoken or articulated.

Pronunciation

Pronunciation includes:

1. **Correct articulation of individual sounds**
2. **Stress patterns**
3. **Rhythm**
4. **Intonation**

Good pronunciation is about imitating a particular accent.

False

The goal of effective pronunciation is to speak _____ enough for the audience to understand the message.

Clearly

_____ refers to the ability to speak a language smoothly, confidently and with reasonable speed and accuracy.

Fluency

A fluent speaker expresses ideas naturally without unnecessary:

1. **Pauses**
2. **Hesitation**

09163490176

3. **Frequent repetition**

Fluency means speaking very fast.

False

Fluency develops through _____ and continuous use of the language.

Regular practice

Confidence means the complete absence of nervousness.

False

Confidence is the ability to _____ and communicate effectively despite it.

Manage nervousness

The qualities and practices that help learners become confident speakers are:

1. **Integrity**
2. **Be yourself**
3. **Focus more on contributing rather than seeking approval**
4. **Practice often**
5. **Know your content**

Integrity means a good speaker should be:

1. **Honest**
2. **Trustworthy**
3. **Sincere**

A speaker with integrity presents information accurately without deliberately _____ the audience.

Misleading

Being yourself means communicating ideas in a _____ and authentic manner rather than imitating others.

Natural

Effective speaking is measured not by applause but by _____.

How well the audience understands the message and benefits from the contribution

Regular speaking practice helps improve:

1. **Pronunciation**
2. **Fluency**
3. **Vocabulary**
4. **Overall delivery**

Confident speakers are necessarily born with exceptional speaking abilities.

False

Most confident speakers develop their confidence through:

1. **Continuous learning**
2. **Consistent practice**
3. **Constructive feedback**

Knowing your content helps a speaker:

1. **Communicate confidently**
2. **Respond appropriately to questions**

09163490176

3. **Maintain a natural flow of speech**
4. **Keep the audience engaged**

The primary purpose of informative speaking is to _____.

Provide factual information and increase understanding

Which of the following is NOT an essential component of speaking: Grammar, Vocabulary, Pronunciation or Memorisation?

Memorisation

Nervousness about speaking before an audience is known as _____.

Inhibition or anxiety

MODULE 2: STUDY SKILLS FOR THE DISTANCE LEARNER

UNIT 3: READING

According to Dadzie (2008), _____ is the ability to understand words contained in a document and make use of the knowledge gained for personal growth and development.

Reading

Reading involves both _____ and _____.

Perception and thought

_____ refers to the ability to read a text, process its content and understand its meaning.

Reading comprehension

Blind or partially sighted learners can read through _____.

Braille

Braille represents letters, numbers and symbols through _____ that can be read with the fingertips.

Raised dots

The four major purposes of reading are:

1. **Reading for pleasure**
2. **Reading for information**
3. **Study reading**
4. **Reading for general understanding**

Reading done at one's own time and free will with the intention of gaining personal satisfaction is _____.

Reading for pleasure

Reading for pleasure is also referred to as:

1. **Independent reading**
2. **Leisure reading**
3. **Recreational reading**

The main purpose of leisure reading is _____.

Entertainment

Novels, newspapers, magazines and comics can be read for _____.

Pleasure

_____ involves a more careful, purposeful and attentive form of reading.

09163490176

Reading for information

The emphasis in reading for information is on _____.

Acquiring knowledge or finding accurate information that can be applied to a particular task or purpose

Reading for information helps a learner to:

1. **Identify features of a text**
2. **Recognise the structure of a text**
3. **Summarise and paraphrase information**
4. **Identify and organise important points logically**
5. **Understand the author's purpose and message**

_____ is a form of reading for information that entails a more serious and intensive form of reading.

Study reading

The purpose of study reading is to _____.

Gather detailed information, remember the main ideas, facts and opinions expressed, and make meaningful connections among them

Study reading requires:

1. **Concentration**
2. **Critical thinking**
3. **Active engagement**

Highlighting important points, making notes, asking questions and reviewing key concepts are activities associated with _____.

Study reading

_____ involves reading to obtain an overall view of a text.

Reading for general understanding

In reading for general understanding, the reader focuses on _____ rather than analysing every detail.

Central ideas

The four major approaches to reading are:

1. **Previewing**
2. **Skimming**
3. **Scanning**
4. **Detailed reading**

_____ involves obtaining a general idea of a text without reading the entire material.

Previewing

A text can be previewed by examining:

1. **Title**
2. **Author's details**
3. **Introduction or abstract**
4. **Headings and sub-headings**
5. **Chapter summaries**

09163490176

6. **Highlighted words**
7. **Illustrations, graphs, tables and diagrams**
8. **Captions**

_____ is a selective reading method in which only the main ideas are read to obtain an overall impression of the content.

Skimming

The purpose of skimming is to _____.

Extract the essence of a text

_____ involves reading rapidly with quick eye movements to locate specific information.

Scanning

Names, dates, definitions, formulas, keywords and statistics can be located quickly through _____.

Scanning

Skimming means _____.

Reading quickly to obtain the general idea of a text

Scanning means _____.

Reading quickly to locate specific information

Skimming normally takes longer than scanning.

True

_____ involves reading slowly and carefully while paying close attention to every important detail.

Detailed reading

Detailed reading is particularly useful when:

1. **Studying complex academic materials**
2. **Preparing for examinations**

Before reading, an effective reader should:

1. **Employ prior knowledge**
2. **Make predictions about the probable meaning of the text**
3. **Preview, skim and scan the material**

During reading, an effective reader should:

1. **Evaluate understanding and comprehension continuously**
2. **Question the ideas presented**
3. **Think critically**
4. **Relate the ideas to previous knowledge**

After reading, an effective reader should:

1. **Reflect on the ideas and information gathered**
2. **Relate the material to previous knowledge and experience**
3. **Review difficult sections**
4. **Apply the knowledge creatively and critically**

The reading strategy represented by SQ3R is _____.

Survey, Question, Read, Recite or Recall, and Review

09163490176

SQ3R is designed to improve:

1. **Comprehension**
2. **Concentration**
3. **Long-term retention of information**

The first stage of SQ3R is _____.

Survey

To survey means to _____.

Obtain an overview of the reading material before detailed study

During surveying, a learner should examine:

1. **Title, subtitles and introduction**
2. **Headings and sub-headings**
3. **Chapter outline**
4. **Reading aids and footnotes**
5. **Bold or italicised words**
6. **Summaries and review questions**
7. **First and last paragraphs**
8. **Pictures, graphs, tables and charts**
9. **Learning outcomes**

The second stage of SQ3R is _____.

Question

At the Question stage, headings and sub-headings can be converted into _____.

Questions

Questions developed before reading become the learner's _____.

Study goals

The third stage of SQ3R is _____.

Read

During the Read stage, the learner should read each section _____.

Thoroughly

Difficult sections should be read more _____ than easier sections.

Slowly

The fourth stage of SQ3R is _____.

Recite or Recall

Reciting involves _____.

Summarising and explaining what has been learned in one's own words

Explaining a topic to someone else can reveal _____.

Areas of weakness

The final stage of SQ3R is _____.

Review

Review involves _____.

Revisiting notes and the material regularly to strengthen retention

Regular review reduces dependence on _____.

09163490176

Cramming

The major advantages of learning through reading include:

1. **Vocabulary expansion**
2. **Improved language skills**
3. **Expansion of knowledge base**
4. **Exploration of new ideas**
5. **Stimulation of imagination and creativity**
6. **Memory improvement**
7. **Improved focus and concentration**
8. **Strong analytical and thinking skills**

Readers usually have a richer _____.

Vocabulary

Reading improves the four language skills of:

1. **Listening**
2. **Speaking**
3. **Reading**
4. **Writing**

Reading encourages the exploration of _____ and exposure to different perspectives.

New ideas

Reading stimulates _____ by allowing the mind to create pictures of people, places and events.

Imagination and creativity

Reading activates the _____ as the reader tries to remember characters, backgrounds, themes, history, plots and attitudes.

Memory

Regular reading improves _____ and the ability to pay attention to a particular task.

Focus and concentration

Reading helps to develop _____ and analytical skills.

Critical thinking

The five essential components of reading are:

1. **Phonics**
2. **Phonemics**
3. **Vocabulary development**
4. **Fluency**
5. **Comprehension**

_____ is the understanding of the relationship between letters and their sounds.

Phonics

_____ refers to the ability to recognise and use individual sounds called phonemes to create words.

Phonemics

Phonemes are the _____ units that make up spoken language.

09163490176

Smallest

The word "bent" contains _____ individual units of sound.

Four

The word "mop" contains _____ individual units of sound.

Three

The word "odd" contains _____ individual units of sound.

Two

Phonics is used only in _____ language because it involves letters.

Written

Phonemics centres on _____ rather than written words.

Sounds of language

_____ involves the ability to identify and understand the words you read.

Vocabulary development

_____ is the ability to read with speed, accuracy and an understanding of expressions.

Fluency

The main reason why we read is _____.

Comprehension

The practice of skipping back or repeatedly re-reading the same information is known as _____.

Regression

Regression wastes _____.

Reading time

_____ occurs when words are pronounced aloud while reading.

Vocalisation

_____ occurs when words are pronounced mentally while reading.

Sub-vocalisation

Vocalisation and sub-vocalisation generally _____ reading.

Slow down

Reading one word at a time makes reading _____.

Slow

Reading in _____ rather than individual words encourages faster reading.

Chunks or groups of words

Examples of external distractions to reading include:

1. **Noise**
2. **Family or friend interference**
3. **Television**
4. **Social media**

Thoughts and worries are examples of _____ distractions.

Internal distractions

A conducive environment and maintained concentration help overcome _____.

Distractions and loss of attention

09163490176

UNIT 4: WRITING

_____ is an essential study skill that enables learners to communicate ideas through assignments, examinations, reports and other academic tasks.

Writing

Writing is both:

1. **A process of discovery**
2. **A means of communication**

Writing is a process of _____ because the writer has to think about what to write and gather sufficient information before writing.

Discovery

Before beginning to write, a writer should gather information from relevant sources such as:

1. **Books**
2. **Journals**
3. **The Internet**
4. **Knowledgeable people**
5. **Real-life experiences**
6. **Library research**
7. **Interviews**
8. **Questionnaires**
9. **Personal observation**

Any piece of writing is a channel of _____.

Communication

In writing, the audience refers to the _____.

Reader

Effective writing involves presenting ideas _____ so that the reader can understand the message.

Logically, clearly and coherently

The four basic types of essays are:

1. **Descriptive**
2. **Narrative**
3. **Argumentative**
4. **Expository**

A _____ essay provides sensory details of how something looks, feels, sounds, is or happened.

Descriptive

A _____ essay tells a story.

Narrative

Narrative essays are generally written in the _____ person.

First

A _____ essay attempts to persuade the reader to accept the writer's point of view.

09163490176

Argumentative

An _____ essay is mostly research-based writing that explains, analyses or evaluates an idea or issue.

Expository

An expository essay requires:

1. **Careful investigation of the subject**
2. **Logical presentation of facts**
3. **Explanations**
4. **Conclusions**

Other common types of writing include:

1. **Term papers and class assignments**
2. **Thesis or dissertation**
3. **Examination answers**
4. **Letters**
5. **Applications**
6. **Articles**
7. **Speeches**
8. **Reports**
9. **Minutes of meetings**
10. **Memos**
11. **Circulars**
12. **Recipes**
13. **Business correspondence**
14. **E-mails**
15. **Proposals**

Each type of writing has its own _____.

Guidelines

The first step in developing one's own writing style is to _____.

Use one's own words

_____ involves listening and writing what you have heard in your own words.

Note taking

Note taking requires the learner to _____ rather than write everything word for word.

Paraphrase

_____ is an individual study activity carried out during private study.

Note making

Note making is done when you _____.

Read and write

Note taking is done in the process of _____.

Listening

Note making is described as _____.

Thinking on paper or thinking on screen

09163490176

The first step in the writing process is to _____.

Decide on your topic

When choosing a topic, the writer should consider:

1. **The occasion**
2. **The audience**
3. **The topicality of the topic**
4. **The time available for preparing the write-up**
5. **The required length**

The second step in the writing process is to _____.

Collect materials for the writing

Materials for writing can be obtained from:

1. **Books**
2. **Journals**
3. **Encyclopaedias**
4. **Magazines**
5. **Newspapers**
6. **The Internet**
7. **Knowledgeable people**

The third step in the writing process is to _____.

Prepare an outline

An outline is a _____.

List of ideas, thoughts or information on the proposed topic

Supporting details should be arranged in _____ and _____ order.

Chronological and logical

_____ involves brainstorming and putting down ideas haphazardly before arranging them as a draft.

Prewriting or outlining

_____ is the act of thinking widely on a particular topic and coming up with varied ideas.

Brainstorming

After brainstorming, irrelevant ideas should be _____.

Deleted or dropped

The relevant ideas should then be arranged in _____.

Logical order

The five major stages of the writing process are:

1. **Prewriting or outlining**
2. **Writing the first draft**
3. **Revision**
4. **Editing**
5. **Preparing the final draft**

After developing a topic, thesis and outline, the writer proceeds to the _____.

First draft

09163490176

_____ helps the writer ensure that the work is of high quality.

Revision

During revision, the writer should check whether:

1. **The central idea is clear**
2. **Other sentences support the central idea**
3. **The work is effectively organised and coherent**
4. **The work is interesting and convincing**

_____ is like pruning written work.

Editing

During editing, irrelevant or redundant words, sentences, paragraphs and illustrations should be _____.

Deleted

Editing helps ensure that writing is:

1. **Well organised**
2. **Clear**
3. **Coherent**

After the first draft has been revised and thoroughly edited, the result is the _____.

Final draft

The basic steps in writing include:

1. **Title**
2. **Thesis or main idea**
3. **Linking paragraphs**
4. **Supporting the thesis with specific evidence where necessary**
5. **Organising and connecting the title, introduction, main body and conclusion**
6. **Ensuring unity and coherence**

An appropriate title should give the reader an idea about the _____.

Subject matter

An appropriate title helps the writer avoid _____.

Digression

The central idea around which a piece of writing revolves is called the _____.

Thesis

The thesis may also be called:

1. **Controlling idea**
2. **Theme**
3. **Purpose**

The audience influences _____ and _____.

What you write and how you write it

A _____ is a unit of thought comprising one or more sentences.

Paragraph

The most important sentence in a paragraph is the _____.

Topic sentence

09163490176

The topic sentence expresses the _____ of the paragraph.

Central idea

A good paragraph should be characterised by:

1. **Unity**
2. **Coherence**
3. **Adequate development**

Transitional devices are used to link _____ and _____.

Sentences and paragraphs

Words used to express result include:

1. **Therefore**
2. **As a result**
3. **Consequently**
4. **Thus**
5. **Hence**

Words used to give examples include:

1. **For example**
2. **For instance**
3. **Specifically**
4. **As an illustration**

Words used to express comparison include:

1. **Similarly**
2. **Likewise**

Words used to express contrast include:

1. **But**
2. **Yet**
3. **Still**
4. **However**
5. **Nevertheless**
6. **On the other hand**

Words used to express addition include:

1. **Moreover**
2. **Furthermore**
3. **Also**
4. **Too**
5. **Besides**
6. **In addition**

Words used to express sequence include:

1. **First**
2. **Second**
3. **Third**
4. **Then**

09163490176

5. **Next**
6. **Finally**

Words used to indicate time include:

1. **Now**
2. **Later**
3. **Meanwhile**
4. **Since then**
5. **After that**
6. **Before that time**

The opening paragraph should _____.

Capture and sustain the reader's attention

The thesis statement should be supported with _____.

Concrete evidence and relevant information

Clarity requires writing to be _____ and _____.

Clear and definite

_____ implies oneness of the subject matter in writing.

Unity

_____ means that all ideas, thoughts and points expressed in writing are connected.

Coherence

Linking words and sequence markers help achieve _____.

Coherence

UNIT 5: STUDY STRATEGIES

A _____ refers to the way an individual prefers to receive, process and retain information.

Learning style

Identifying an appropriate learning style can improve:

1. **Concentration**
2. **Comprehension**
3. **Memory**
4. **Academic performance**

No learning style is superior to another.

True

A learner may combine two or more learning styles depending on the subject or task.

True

The four major types of learners discussed are:

1. **Visual learner**
2. **Auditory/Aural learner**
3. **Verbal learner or Reading/Writing learner**
4. **Tactile/Kinaesthetic learner**

A learner who studies and remembers better with pictures, graphics, diagrams and charts is a _____.

Visual learner

09163490176

Visual learners have a preference for what they _____.

See

Study techniques suitable for visual learners include:

1. **Images, diagrams and charts**
2. **Mind maps**
3. **Flashcards**
4. **Coloured pens and highlighters**
5. **Sketches and flowcharts**
6. **Mental images**

_____ learners prefer to learn by listening and remember what they hear better than what they see.

Auditory/Aural learners

Study techniques suitable for auditory learners include:

1. **Recording notes and playing them back**
2. **Reading notes aloud**
3. **Explaining ideas to a friend**
4. **Participating in discussions**
5. **Listening to educational podcasts**
6. **Listening to recorded lectures and audio materials**

A learner who uses words in writing and speech with ease is a _____.

Verbal learner or Reading/Writing learner

Information retention for verbal learners is often more successful through:

1. **Textbooks**
2. **Note taking**
3. **Verbalising lessons**

Study techniques suitable for verbal learners include:

1. **Rewriting notes repeatedly**
2. **Rewriting notes from memory**
3. **Organising thoughts into lists**
4. **Making notes in one's own words**
5. **Writing answers in quiz form**
6. **Reading written materials repeatedly**

_____ learners prefer physical activity and learn by doing.

Tactile/Kinaesthetic learners

Study techniques suitable for kinaesthetic learners include:

1. **Role-playing**
2. **Building models**
3. **Writing notes while studying**
4. **Acting out situations**
5. **Getting practical experience**
6. **Taking regular study breaks**

09163490176

There is one study technique that is effective for everybody.

False

The best study method is one that helps the learner _____.

Understand concepts, retain information and apply what has been learned

The methods, approaches and techniques for effective study include:

1. **Note taking**
2. **Learning things by heart**
3. **Learning with others**
4. **Explaining to others**
5. **Audio/Video**
6. **Learning by doing**
7. **Learning by deducing**
8. **Tests and mock examinations**
9. **Adjusting the length of study periods and deadlines**

Effective note taking involves identifying:

1. **Main ideas**
2. **Key concepts**
3. **Supporting details**

Good notes should be:

1. **Organised**
2. **Concise**
3. **Easy to understand during revision**

Headings, sub-headings, bullet points, numbering and keywords help make notes _____.

Well organised

Learning things by heart can help learners recall _____ and _____ in examinations.

Facts and quotations

Memorisation should be combined with _____.

Understanding

Studying with other people is also known as _____.

Social learning

Academic discussion forces learners to _____ and _____ their opinions.

Question and defend

Explaining a concept to another person requires the learner to have a _____ of the topic.

Thorough grasp

Audio and video learning resources include:

1. **Educational videos**
2. **Recorded lectures**
3. **Podcasts**
4. **Documentaries**
5. **Webinars**
6. **Audiobooks**

09163490176

Audio and video materials should _____ rather than replace reading and note-taking.

Complement

One of the most effective learning styles is to _____.

Learn by doing

Learning by doing involves experiencing things _____.

In real life

Conducting a scientific experiment is an example of _____.

Learning by doing

_____ involves working through a problem independently rather than simply being told the answer.

Learning by deducing

Learning by deducing is particularly suited to _____ and _____ subjects.

Mathematical and scientific

Tests and mock examinations help learners:

1. **Assess their level of understanding**
2. **Identify strengths and weak areas**
3. **Improve confidence**
4. **Develop time-management skills**
5. **Become familiar with different question formats**
6. **Reduce examination anxiety**

A mock examination should be treated as though it were the _____.

Real examination

Learners should experiment with different study session lengths to determine their _____.

Optimum study time

_____ are memory techniques used to improve the ability to retain and remember information.

Mnemonic devices

Mnemonic devices help the brain to better _____ and _____ important information.

Encode and recall

The mnemonic devices discussed include:

1. **Acronyms**
2. **Rhymes**
3. **Chunking and organisation**
4. **Imagery**

_____ are pronounceable words formed from the first letters or first few letters of words in a name or phrase.

Acronyms

UNICEF, SMART, AWOL, AIDS and SWOT are examples of _____.

Acronyms

SMART means _____.

Specific, Measurable, Attainable, Relevant and Timely

09163490176

SWOT means _____.

Strengths, Weaknesses, Opportunities and Threats

_____ make remembering easier because they contain similar sounds at the end of each line.

Rhymes

_____ involves breaking larger pieces of information into smaller organised units.

Chunking and organisation

The smaller units created through chunking are called _____.

Chunks

_____ involves creating a mental picture of information that needs to be remembered.

Imagery

The practical strategies for effective study include:

1. **Pick a place and time**
2. **Study daily**
3. **Plan your time**
4. **Discover your learning style**
5. **Review and revise**
6. **Take breaks**
7. **Ask for help**
8. **Stay motivated**
9. **Prioritise your time**
10. **Participate in class discussions**
11. **Find a study group**
12. **Manage your life and family well**

A good study space should be:

1. **Quiet**
2. **Comfortable**
3. **Free from distractions**

A learner should schedule study sessions at the time of day when he or she is most _____.

Alert

Studying a little every day helps avoid the stress of _____.

Last-minute cramming

Tools for planning study time include:

1. **Alarms**
2. **Wall planners**
3. **To-do lists**
4. **Time limits**

Learners should review and revise their work at least _____.

Once a week

Quizzes help learners determine what they _____ and what they still need to _____.

Know; learn

09163490176

Working too long on a task can _____ performance.

Decrease

A learner who does not understand something should seek help from _____.

Teachers, lecturers, friends or fellow students

At the beginning of a study session, a learner should start with the _____ tasks before moving to the easier ones.

More difficult

Class discussions help learners by _____ knowledge in their minds.

Imprinting

Effective preparation for tests and examinations includes:

1. **Giving yourself enough time to study**
2. **Organising your study space**
3. **Using flow charts and diagrams**
4. **Practising with old examinations**
5. **Explaining answers to others**
6. **Organising study groups**
7. **Taking regular breaks**
8. **Eating properly**
9. **Drinking plenty of water**
10. **Planning the examination day**

Preparing a study timetable helps learners avoid _____.

Last-minute studying

Practising with past questions familiarises learners with _____.

The format of the examination and the types of questions that may be asked

Timing yourself while answering past questions improves _____.

Time-management skills

Short, regular study breaks improve:

1. **Concentration**
2. **Productivity**
3. **Long-term retention**

Nutritious foods mentioned for examination preparation include:

1. **Fish**
2. **Nuts**
3. **Seeds**
4. **Yoghurt**
5. **Fruits**

Adequate water intake helps maintain:

1. **Concentration**
2. **Alertness**
3. **Mental performance**

Before examination day, learners should confirm:

09163490176

1. **The examination venue**
2. **The examination time**
3. **Required materials**

Which mnemonic device involves breaking large amounts of information into smaller units?

Chunking

One major benefit of mock examinations is that they help learners _____.

Become familiar with examination conditions and identify weak areas

An effective study habit is to _____.

Study daily and review materials regularly

MODULE 3: ASSESSMENT AND EVALUATION MODES IN OPEN AND DISTANCE LEARNING (ODL)

UNIT 1: OVERVIEW OF ASSESSMENT IN ODL

_____ is an essential part of the teaching and learning process in every educational system.

Assessment

Assessment enables learners and instructors to determine the extent to which _____ have been achieved.

The intended learning outcomes

Forms of assessment in ODL include:

1. **Assignments**
2. **Quizzes**
3. **Projects**
4. **Discussions**
5. **Presentations**
6. **Practical exercises**
7. **Semester examinations**

Assessment involves gathering information about learners' _____.

Knowledge, skills, attitudes and performance

_____ involves interpreting information obtained through assessment to make informed decisions.

Evaluation

Assessment and evaluation mean exactly the same thing.

False

Assessment provides the _____, while evaluation determines the value or worth of that evidence.

Evidence

_____ focuses on gathering information about learners' knowledge, skills and attitudes.

Assessment

_____ involves making judgments based on information collected through assessment.

Evaluation

09163490176

Assessment occupies a vital position in:

1. **Teaching and learning**
2. **Certification**
3. **Acquiring knowledge and skills**

Assessment is a _____ of the total ODL system.

Sub-system

All activities an instructor carries out to ascertain the level of achievement and ability of a learner constitute _____.

Assessment

According to Nitko and Brookhart (2007), assessment is a process for obtaining information used for making decisions about:

1. **Students**
2. **Curricula**
3. **Programmes**
4. **Schools**
5. **Educational policy**

Assessing students' competence involves collecting information to determine the degree to which learners have achieved _____.

The intended learning targets

Assessment is a form of _____ that provides useful feedback for improving teaching and learning.

Classroom research

Assessment serves as feedback from the learner to the instructor concerning the learner's _____.

Progress and understanding

Assessment in ODL provides feedback to learners from assignments to the _____.

Term-end examination

Assessment helps learners examine their performance at _____ of their study.

Every stage

Summative evaluation in ODL is reached based on _____.

Formative assessment

Assessment in ODL is not only meant for students to _____.

Earn a grade

Assessment is also helpful in monitoring the effectiveness of _____.

Academic programmes

Assessment assists institutions in adopting appropriate strategies to accomplish _____.

Institutional objectives

Assessment in ODL is not only for certifying students; it also contributes to _____.

Learning improvement

According to Falayajo (2004), assessment can promote and improve learning when the outcomes being tested are recognised and accepted as _____.

09163490176

Important objectives of the instructional programme

Assessment of achievement should be planned and implemented as an integral part of the _____.

Curriculum and programme of instruction

Guidelines for selecting assessment meaningfully include:

1. **Be clear about the learning targets you want to assess**
2. **Ensure assessment techniques match each learning target**
3. **Ensure selected assessment tools serve learners' needs**
4. **Use multiple indicators of achievement for each learning target**
5. **Consider limitations of assessment results when interpreting them**

Instructors can ensure effective assessment by:

1. **Striving for clarity**
2. **Maintaining balance**
3. **Ensuring validity and reliability**
4. **Accommodating individual needs and differences**

Effective assessment should be:

1. **Valid**
2. **Reliable**
3. **Fair**
4. **Aligned with the intended learning outcomes**

_____ is the process of making a value judgement about the worth of a student's product or performance.

Evaluation

Evaluation is a continuous process of inquiry concerned with the study, appraisal and improvement of _____.

All aspects of educational programmes

Evaluation leads to _____ among several alternatives.

Decision-making

The scope of evaluation includes:

1. **Value judgement**
2. **Ascertaining the extent to which educational objectives have been achieved**
3. **Appraising the effectiveness of instruction**
4. **Identifying learners' strengths and weaknesses**

The major purposes of assessment discussed include:

1. **Instructional Management**
2. **Selection**
3. **Placement**
4. **Classification**
5. **Guidance and Counselling**
6. **Credentialing and Certification**

_____ helps instructors plan instructional activities, monitor students' progress and

09163490176

diagnose learning difficulties.

Instructional Management

Instructional management through assessment can help in:

1. **Planning instructional activities**
2. **Placing students into learning sequences**
3. **Monitoring students' progress**
4. **Diagnosing learning difficulties**
5. **Providing feedback about achievements**
6. **Evaluating teaching effectiveness**
7. **Assigning grades**

_____ involves accepting or rejecting candidates for admission or other opportunities based on assessment results.

Selection

NECO and WAEC are examples of approved assessment bodies whose results may be used for _____.

Selection

_____ involves assigning people to different levels of the same general type of instruction, education or work without rejecting anyone.

Placement

In placement, all individuals remain within the institution but are assigned to _____.

Some level

_____ involves assigning a learner to one of several different but unordered categories, jobs or programmes.

Classification

Classification is a more general term that includes _____ and _____ as special cases.

Selection and placement

In _____, the categories are essentially unordered.

Classification

In _____, the categories represent ordered levels without rejection.

Placement

In _____, students are accepted or rejected.

Selection

Guidance counsellors use assessment to obtain relevant information in order to _____.

Guide learners better

Assessment results may assist students in:

1. **Exploring careers**
2. **Choosing careers**
3. **Preparing for careers**

Assessment techniques used in guidance and counselling include:

1. **Interview**
2. **Questionnaire**

09163490176

3. **Interest inventory**
4. **Aptitude test**
5. **Achievement battery**

_____ refers to the confirmation of certain characteristics of an object, person or organisation.

Certification

Assessment helps to determine whether a learner has attained the _____ required for certification.

Minimum competency

Classroom assessment is generally divided into three types:

1. **Assessment for Learning**
2. **Assessment of Learning**
3. **Assessment as Learning**

Assessment for Learning is also known as _____.

Formative Assessment

Assessment for Learning is used for diagnosing learners' _____ during the instructional process.

Problems and difficulties

Assessment for Learning provides _____ to alleviate identified difficulties.

Remediation

The result of formative assessment is used to:

1. **Improve teaching**
2. **Guide students' learning**
3. **Provide feedback for appropriate intervention**

Formative assessment is _____ and sustained throughout the learning process.

Continuous

Assessment for Learning indicates to students their _____.

Progress and growth

_____ is cumulative in nature.

Assessment of Learning

Assessment of Learning is used to confirm what students already know and _____.

What they can do

Assessment of Learning is also known as _____.

Summative Assessment

Summative assessment helps instructors evaluate students after they have completed _____.

One or more units of study

Summative information about a student's achievement counts towards _____.

Grades

Summative assessment usually occurs at the end of a _____ or _____.

Semester or session

09163490176

Assessment of Learning may be used to determine what a student has attained in a course or programme for the purpose of awarding _____.

A degree

Summative assessment can also be used to determine whether an educational programme is _____.

Successful

_____ focuses on fostering and supporting metacognitive development in students.

Assessment as Learning

Assessment as Learning encourages students to _____ and _____ upon their own learning.

Monitor and reflect

Assessment as Learning enables students to use information gathered to support and direct _____.

New learning

Which type of assessment is mainly conducted during instruction to improve learning?

Formative Assessment

Which type of assessment is conducted at the end of a course or semester to determine overall achievement and award grades?

Summative Assessment

Which type of assessment encourages learners to reflect on and monitor their own learning?

Assessment as Learning

Evaluation primarily involves _____.

Making value judgments based on assessment results

UNIT 2: INSTRUCTIONAL-BASED ASSESSMENT MODES

Instructional-based assessment allows learners to assess their understanding at _____ of study.

Different stages

Instructional-based assessment in ODL promotes:

1. **Continuous learning**
2. **Timely feedback**
3. **Self-improvement**

The two major instructional-based assessment modes discussed are:

1. **In-text/Self-Assessment**
2. **Tutor/Computer-Marked Assignment**

_____ refers to activities, questions, short exercises, reflections and quizzes embedded within study materials.

In-text or Self-Assessment

Self-assessment is completed _____ by the learner.

Independently

The primary purpose of self-assessment is to _____ rather than assign grades.

Improve learning

09163490176

Self-assessment encourages _____ participation in the learning process.

Active

During self-assessment, learners may:

1. **Answer questions**
2. **Solve problems**
3. **Reflect on what they have learned**

Self-assessment enables learners to identify:

1. **Areas they understand well**
2. **Areas where additional study is needed**

Self-assessment promotes continuous learning and reduces the likelihood of accumulating _____.

Misconceptions

One major advantage of self-assessment is that it develops _____ learning skills.

Independent

ODL learners must take responsibility for monitoring their own _____.

Progress

Regular completion of in-text exercises enables learners to become more aware of their:

1. **Strengths**
2. **Weaknesses**

Self-assessment helps learners develop:

1. **Confidence**
2. **Self-reflection**
3. **Self-improvement**

Effective self-assessment is based on clear _____.

Learning outcomes

Learners can compare their performance against the intended outcomes to determine whether _____ is necessary.

Further revision

Self-assessment makes learning more _____ and goal-oriented.

Purposeful

Self-assessment provides _____ feedback.

Immediate

Suggested answers or explanations enable learners to compare their responses with _____.

Expected answers

Immediate feedback allows errors to be corrected _____.

Promptly

For self-assessment to be meaningful, learners should answer questions honestly without consulting _____ until they have attempted the exercise independently.

Textbooks or notes

Honest responses during self-assessment help identify genuine _____.

Learning gaps

09163490176

Where necessary, learners should:

1. **Revisit difficult concepts**
2. **Consult additional resources**
3. **Seek clarification from facilitators**

Self-assessment prepares learners for:

1. **Tutor-Marked Assignments**
2. **Computer-Based Tests**
3. **Examinations**

Regular self-assessment practice improves:

1. **Recall**
2. **Critical thinking**
3. **Confidence**

Forms of self-assessment in ODL include:

1. **Multiple-choice questions**
2. **Short-answer questions**
3. **Fill-in-the-gap exercises**
4. **Matching activities**
5. **Reflection questions**
6. **Case studies and scenarios**
7. **Practice quizzes**
8. **True-or-false questions**

Self-assessment activities contribute directly to the learner's final grade.

False

The major purpose of self-assessment is to _____.

Help learners monitor and improve their learning

Learners are expected to complete stipulated _____ or _____ as part of continuous assessment.

Tutor-Marked Assignments (TMAs) or Computer-Marked Assignments (CMAs)

Tutor/Computer-Marked Assignments are designed to:

1. **Evaluate learners' understanding of course content**
2. **Provide constructive feedback**
3. **Prepare learners for the final examination**

A _____ is submitted to an instructor or facilitator who scores and grades the learner's responses.

Tutor-Marked Assignment (TMA)

A TMA is scored according to established _____.

Marking criteria

After marking a TMA, the facilitator provides _____ and _____.

Comments and feedback

Feedback from a TMA helps learners:

1. **Understand their strengths**

09163490176

2. **Identify areas requiring improvement**

A _____ consists of assessment items generated by the facilitator and uploaded to an online learning platform.

Computer-Marked Assignment (CMA)

Learners complete CMAs _____ within a specified period.

Electronically

After submission of a CMA, the _____ automatically scores the responses.

Computer

Computer-Marked Assignments provide _____ feedback.

Immediate

Which assessment provides detailed comments directly from an instructor?

Tutor-Marked Assignment

Which assessment is automatically scored by an online learning platform?

Computer-Marked Assignment

In NOUN, continuous assessment is currently _____.

Computer-based

Each student is required to complete _____ Computer-Marked Assignments for every registered course.

Four

Each CMA consists of _____ multiple-choice questions.

20

The four CMAs contain a total of _____ questions per course.

80

Learners must complete each CMA within the _____ provided on the university portal.

Stipulated time frame

Failure to submit a CMA within the scheduled period usually results in _____.

The portal being closed

Tutor/Computer-Marked Assignments encourage learners to _____ throughout the semester.

Study consistently

Continuous assessment discourages learners from waiting until _____ before studying.

Examination periods

Assignments covering recently studied topics encourage learners to:

1. **Read regularly**
2. **Revise course materials**

Continuous engagement with assignments promotes:

1. **Deeper understanding**
2. **Better knowledge retention**

Feedback from TMAs and CMAs enables learners to:

1. **Identify mistakes**
2. **Understand why an answer is incorrect**

09163490176

3. **Improve subsequent performance**

Instructors can use assessment performance to identify areas requiring additional _____ or _____.

Explanation or academic support

To perform well in tutor/computer-marked assignments, learners should:

1. **Study each unit thoroughly before attempting the assignment**
2. **Complete all self-assessment exercises**
3. **Observe submission deadlines strictly**
4. **Ensure a stable internet connection**
5. **Read each question carefully**
6. **Review mistakes after feedback**
7. **Revise weak areas**

CMAs are automatically scored and therefore do not contribute to the overall course grade.

False

Self-assessment activities are designed mainly to help learners reflect on and improve their learning.

True

Computer-Marked Assignments are graded manually by course facilitators.

False

Continuous assessment helps learners to _____.

Learn consistently throughout the course

UNIT 3: SEMESTER EXAMINATION

_____ is one of the most important components of assessment in Open and Distance Learning.

Semester examination

Semester examination enables learners to demonstrate the _____ they have acquired throughout the semester.

Knowledge, skills and competencies

Continuous assessment evaluates learning _____.

Progressively

Semester examination assesses the _____ achievement of the intended learning outcomes of a course.

Overall

_____ is the process of assessing learners' knowledge, understanding, skills, attitudes and competencies after a period of study.

Examination

Examination is a formal means of determining the extent to which _____ have been achieved.

The intended learning outcomes of a course

According to Osindeinde (2000), examination is a broad term that connotes the assessment of:

09163490176

1. **Knowledge**
2. **Skills**
3. **Intelligence**

Examinations in ODL serve the following functions:

1. **Certification**
2. **Promotion**
3. **Selection**
4. **Placement**
5. **Quality assurance**
6. **Accountability**

NOUN conducts semester examinations through two major modes:

1. **Pen-on-Paper (PoP) Examination**
2. **Electronic (e-Examination)**

The Pen-on-Paper examination is mainly designed for:

1. **300-level undergraduate students**
2. **400-level undergraduate students**
3. **500-level undergraduate students**
4. **Students in the Faculty of Law**
5. **All postgraduate students**

PoP examinations consist mainly of _____ questions.

Essay-type

In the PoP examination, students write responses manually in _____.

Answer booklets

Essay examinations assess learners' ability to:

1. **Organise ideas logically**
2. **Analyse concepts**
3. **Present arguments**
4. **Communicate effectively in writing**

Typically, 300-level students are presented with _____ essay questions.

Five

Typically, 300-level students are required to answer any _____ of the five essay questions.

Three

Students in the 400 and 500 levels and postgraduate programmes are usually presented with _____ questions.

Six

Students in the 400 and 500 levels and postgraduate programmes are usually required to answer any _____ questions.

Four

Essay examinations encourage:

1. **Critical thinking**
2. **Problem-solving**

09163490176

3. **Synthesis of ideas**
4. **Application of knowledge**

_____ is a computer-based assessment mode used primarily for undergraduate students in the 100 and 200 levels.

Electronic examination (e-Examination)

Students in the Faculty of Law at 100 and 200 levels normally use e-Examination.

False

e-Examination consists mainly of _____ questions.

Objective or multiple-choice

Students answer e-Examination questions using _____.

A computer

e-Examination primarily tests:

1. **Knowledge**
2. **Comprehension**
3. **Application through objective items**

Advantages of e-Examination include:

1. **Faster marking**
2. **Greater accuracy of marking**
3. **Computer-generated question randomisation**
4. **Quicker release of results**
5. **Reduced use of paper**
6. **Improved examination administration**

Computer-generated question randomisation helps reduce _____.

Examination malpractice

Students taking e-Examinations should be familiar with _____.

Basic computer operations

Before attempting e-Examination questions, students should carefully read _____.

All instructions displayed on the computer screen

Semester examinations serve the following purposes:

1. **Assess the extent to which learners have achieved intended learning outcomes**
2. **Determine readiness for promotion to the next level**
3. **Provide evidence for certification**
4. **Maintain academic standards and ensure quality assurance**

Success in semester examinations results from:

1. **Adequate preparation**
2. **Consistent study habits**
3. **Effective examination strategies**

Northedge (2010) recommends that students should:

1. **Begin revision early**
2. **Gather notes and textbooks**

09163490176

3. **Obtain past examination questions**
4. **Prepare a revision timetable**
5. **Make summary notes**
6. **Practise answering past questions**
7. **Maintain academic interaction with fellow learners**

One of the most effective examination strategies is to _____.

Begin preparation well before the examination period

Early preparation helps students:

1. **Review difficult topics**
2. **Seek clarification**
3. **Avoid last-minute cramming**
4. **Improve long-term retention**

A realistic _____ helps students organise their study activities.

Revision timetable

A revision timetable should allocate time to each course according to its _____.

Level of difficulty

A revision timetable should include short breaks to prevent _____.

Fatigue

Students should focus primarily on:

1. **Officially recommended course materials**
2. **Lecture notes**
3. **Tutor feedback**
4. **Other approved learning resources**

During revision, emphasis should be placed on understanding concepts, principles and _____ rather than memorising every sentence.

Their practical applications

Past examination questions provide insight into:

1. **Examination format**
2. **Style**
3. **Level of difficulty**

Practising past questions under timed conditions helps students:

1. **Improve speed**
2. **Identify knowledge gaps**
3. **Become familiar with examination expectations**

Summary notes should highlight important:

1. **Definitions**
2. **Concepts**
3. **Formulas**
4. **Diagrams**
5. **Examples**

Excessive examination anxiety may affect _____ and _____.

09163490176

Concentration and performance

Ways of reducing examination anxiety include:

1. **Adequate preparation**
2. **Enough sleep**
3. **Healthy meals**
4. **Relaxation techniques**
5. **Maintaining a positive attitude**

Physical and mental well-being contribute significantly to _____.

Academic performance

To maintain good health during examinations, students should:

1. **Eat balanced meals**
2. **Drink sufficient water**
3. **Exercise moderately**
4. **Get adequate rest**

Good health improves:

1. **Concentration**
2. **Memory**
3. **Alertness**

Students should arrive at the examination venue _____.

Early

Materials students may need for examinations include:

1. **Student identity card**
2. **Examination slip**
3. **Pens**
4. **Pencils**
5. **Calculator where permitted**
6. **Other approved materials**

Before attempting examination questions, students should carefully read _____.

All examination instructions

Students should note:

1. **The number of questions to answer**
2. **Marks allocated**
3. **Time available**

During an examination, students should allocate time according to _____.

The marks assigned to each question

Students should reserve a few minutes at the end of an examination to _____.

Review their answers

The most effective strategy for preparing for a semester examination is _____.

Beginning revision early and following a study timetable

The importance of practising past examination questions is to _____.

Improve familiarity with the examination format and identify areas that need

09163490176

improvement

Common mistakes students should avoid during examinations include:

1. **Not answering the question**
2. **Not using relevant course materials**
3. **Stuffing answers with facts and names**
4. **Poor time management**
5. **Poor presentation**
6. **Ignoring examination instructions**
7. **Engaging in examination malpractice**

Misinterpreting words such as discuss, explain, compare, evaluate, analyse or justify can result in _____.

Not answering the question asked

Before writing an answer, students should identify the _____ in the question.

Instructional words

Examination answers should primarily reflect concepts, principles and examples contained in _____.

Approved course materials

Answers based solely on personal opinions or unrelated experiences may not adequately address _____.

Examination requirements

Writing numerous dates, names, definitions and facts does not automatically _____.

Earn high marks

Examiners are generally more interested in how well students understand concepts and _____.

Apply knowledge

Well-organised answers that explain ideas clearly are generally better than answers containing _____ without explanation.

Excessive memorised facts

Spending too much time on one question may result in _____.

Insufficient time for the remaining questions

If a question proves difficult, a student may _____ and return to it later if time permits.

Move on

Poor presentation may include:

1. **Poor organisation**
2. **Lack of paragraphs**
3. **Illegible handwriting**
4. **Numerous grammatical errors**

For good presentation, students should:

1. **Organise answers logically**
2. **Write legibly**
3. **Number questions correctly**

09163490176

4. **Present work neatly**

Examples of ignoring examination instructions include:

1. **Answering more questions than required**
2. **Answering fewer questions than required**
3. **Using the wrong answer booklet**
4. **Failing to provide required information such as examination numbers**

_____ includes cheating, impersonation, bringing unauthorised materials into the examination hall, communicating with other candidates or using prohibited electronic devices.

Examination malpractice

Examination malpractice may result in:

1. **Cancellation of examination results**
2. **Suspension**

Students should uphold _____ and _____ throughout examinations.

Honesty and integrity

Five good examination practices are:

1. **Read all instructions carefully**
2. **Manage examination time effectively**
3. **Answer questions according to instructions**
4. **Present answers clearly and logically**
5. **Remain calm, focused and avoid examination malpractice**

MODULE 3: ASSESSMENT AND EVALUATION MODES IN OPEN AND DISTANCE LEARNING (ODL)

UNIT 4: ASSESSMENT OF NON-EXAMINABLE COURSES

Courses that assess learners through practical activities, research, seminars, industrial training or teaching practice rather than formal written examinations are known as _____.

Non-examinable courses

Non-examinable courses assess learners' ability to _____.

Apply knowledge and skills in real-life situations

Examples of non-examinable assessments include:

1. **Research projects**
2. **Practicum**
3. **Students' Industrial Work Experience Scheme (SIWES)**
4. **Teaching practice**
5. **Seminar presentations**
6. **Practical laboratory work**

Every undergraduate student is required to carry out a _____ as one of the requirements for graduation.

Research project

_____ is a systematic process of collecting, analysing and interpreting data in order to

09163490176

improve understanding of a particular problem or phenomenon.

Research

Research is more than simply _____.

Gathering information or compiling facts

Research involves:

1. **Identifying a problem**
2. **Asking relevant questions**
3. **Collecting evidence**
4. **Analysing the evidence**
5. **Drawing logical conclusions based on the findings**

Research projects enable ODL learners to apply _____ to real-life situations.

The theories and concepts they have studied

Research projects help learners develop:

1. **Critical thinking skills**
2. **Problem-solving skills**
3. **Communication skills**
4. **Academic writing skills**

A standard research project is commonly organised into _____ chapters.

Five

Chapter One of a research project is the _____.

Introduction

Chapter Two is the _____.

Literature Review

Chapter Three is the _____.

Methodology

Chapter Four deals with _____.

Data Analysis, Interpretation and Discussion of Findings

Chapter Five deals with _____.

Summary, Conclusion and Recommendations

The major elements of Chapter Three include:

1. **Research Design**
2. **Population of the Study**
3. **Sample and Sampling Techniques**
4. **Instrument(s) for Data Collection**
5. **Validity and Reliability of the Instrument(s)**
6. **Procedure for Data Collection**
7. **Method of Data Analysis**

The purpose of the methodology chapter is to explain _____.

How the study was carried out so that the findings can be trusted and replicated where necessary

Chapter Four presents the data collected and analyses the results using _____.

09163490176

Appropriate statistical or qualitative techniques

Chapter Five commonly includes:

1. **Summary of Findings**
2. **Conclusion**
3. **Implications of the Study**
4. **Recommendations**
5. **Suggestions for Further Research**

Contribution to Knowledge is specifically indicated for _____.

Postgraduate students

The preliminary pages and supporting materials of a research project include:

1. **Title Page**
2. **Certification**
3. **Dedication**
4. **Acknowledgements**
5. **Table of Contents**
6. **List of Tables where applicable**
7. **List of Figures where applicable**
8. **Abstract**
9. **References**
10. **Appendices**

Every Faculty prepares an _____ that supervisors use to evaluate students' projects.

Assessment sheet

Research project assessment usually covers:

1. **Preliminary pages**
2. **Quality of the introduction**
3. **Statement of the research problem**
4. **Research questions or hypotheses**
5. **Objectives of the study**
6. **Literature review**
7. **Research methodology**
8. **Data analysis**
9. **Discussion of findings**
10. **Summary and recommendations**
11. **Referencing using the approved style, usually APA**
12. **General presentation and formatting**

The total score allocated to preliminary pages in the sample Faculty of Education research assessment sheet is _____.

5 marks

Research project assessment aims to determine whether a student has demonstrated competence in _____.

Conducting independent academic research

09163490176

Following the approved departmental project format helps to:

1. **Ensure that all required sections are included**
2. **Facilitate fair assessment**
3. **Improve the quality and acceptability of the research report**

A research project is merely the collection of information from books without analysing or interpreting data.

False

A _____ is a supervised practical application of a previously or concurrently studied theory.

Practicum

Practicums are common among _____ and _____ majors.

Education and social work

Practicums allow students to observe and document how _____ perform their job responsibilities.

Working professionals

General characteristics of practicum include:

1. **Shadowing one or more assigned employees**
2. **Observing and correlating practices in the field with theories and methods previously studied**
3. **Recording data or assisting with tasks as directed by on-site personnel**
4. **Completing practicum course assignments**

Participation at a practicum site is typically _____.

Two or three times per week for a few hours per session

No remuneration is normally expected for a practicum, but it qualifies for _____.

Academic credit

Internships are usually considered _____ experiences.

Full-time

Internships generally follow the _____ of the assigned placement.

Work schedule

Unlike practicums, internships may sometimes provide _____.

A stipend for services rendered

In NOUN, practicum activities enable students to _____.

Practise the theories learnt in real work life

Practicum in NOUN is undertaken within _____.

Six weeks

During practicum, students are monitored by _____.

Internal and external supervisors

Supervisors grade practicum students using an _____.

Assessment sheet

Supervisors' practicum scores are sent to _____.

The Study Centres

_____ is one of the Industrial Training Fund programmes.

09163490176

Students' Industrial Work Experience Scheme (SIWES)

SIWES was designed to give Nigerian students studying occupationally related courses _____.

Experience that would supplement their theoretical learning

The objectives of SIWES include:

1. **Providing an avenue for students to acquire industrial skills and experience during their course of study**
2. **Preparing students for the work situation they are likely to meet after graduation**
3. **Exposing students to work methods and techniques in handling equipment and machinery that may not be available in universities**
4. **Making the transition from university to the world of work easier**
5. **Enhancing students' contacts for later job placement**
6. **Providing students an opportunity to apply theoretical knowledge in real work situations**

SIWES helps bridge the gap between _____ and _____.

Theory and practice

Institutions participating in SIWES are expected to appoint _____.

SIWES Coordinators in Schools

Institutions are expected to prepare and submit _____ and _____ lists.

Master and Placement

Institutions are responsible for placing students on attachment with _____.

Employers

Before industrial training, institutions should organise _____.

Orientation programmes

Institution-based supervisors should make a minimum of _____ visits to students during SIWES attachment.

Three

Employers should attach experienced staff to students for training and supervision at a ratio of _____.

1:10

Students on SIWES are required to keep proper records of training activities in the _____.

Logbook

At the end of training, students must submit:

1. **Logbooks**
2. **Reports**
3. **Other documents related to SIWES**

Students should not change their place of attachment except in special circumstances and with permission from _____.

The Centre Director and the SIWES Directorate

The minimum duration for SIWES funding should normally be _____.

09163490176

24 weeks or 6 months at a stretch

The SIWES period is longer for _____ programmes.

Engineering and technology

The ITF will not pay for an attachment period of less than _____.

24 weeks

Students on SIWES are supervised by _____ and _____.

Professional ITF staff and institution supervisors

A satisfactory SIWES report is an _____ part of the programme.

Essential

A student is not deemed to have successfully passed through SIWES until _____.

A satisfactory report has been written

The recommended SIWES report outline includes:

1. **Title**
2. **Name of Student**
3. **Matriculation Number**
4. **Course and Year**
5. **Location and Firm of Training**
6. **Summary or Abstract**
7. **Acknowledgement**
8. **Introduction**
9. **Main Body of the Report**
10. **Conclusion**
11. **References**
12. **Appendices where applicable**

The summary or abstract of a SIWES report should be about _____.

¾–1 page

The most important part of a SIWES report is the _____.

Main Body of the Report

The main body of a SIWES report should cover:

1. **Skills and practices acquired**
2. **Operation and maintenance training received**
3. **Specific work done**
4. **Relevant designs, calculations and analysis**
5. **Supervision and leadership roles where applicable**
6. **Sketches, diagrams, graphs and drawings**
7. **Experimental tests and tables of results where applicable**

Sketches, diagrams, graphs and drawings used in a SIWES report should have _____.

Titles and figure numbers

In the conclusion of a SIWES report, the student should state _____.

What he or she achieved, contributed and learnt during the attachment

A seminar requires a student to identify an interesting topic and write _____.

09163490176

A full research report on the topic

A seminar report is presented before an _____.

External assessor

The external assessor grades:

1. **The quality of the report**
2. **The presentation**

Seminar presentations are organised at the _____.

Study Centre

Teaching practice is peculiar to students in the _____.

Faculty of Education

Teaching practice lasts for _____.

Six weeks

Students on teaching practice may teach in _____.

Any school of their choice within the community of interest

Teaching practice students are monitored and assessed by _____ assigned by the Study Centres.

Supervisors

Students on teaching practice are required to prepare _____ to guide each lesson.

Lesson notes

Teaching practice is assessed based on:

1. **Introduction of Lesson**
2. **Quality of objective of lesson**
3. **Availability and appropriate use of instructional materials**
4. **Content**
5. **Presentation of lesson**
6. **Evaluation**
7. **Conclusion**
8. **Summary**
9. **Assignment**
10. **Reference materials**

Supervisors normally make _____ assessment visits during the six-week teaching practice.

Two

Practical activities take place mostly in the Faculty of _____.

Science

Science practical activities are particularly common among:

1. **Biology students**
2. **Chemistry students**
3. **Physics students**

After each practical exercise, the student is required to write a _____.

Report

A practical report should contain:

09163490176

1. **Title**
2. **Purpose**
3. **Materials used**
4. **Experimental Procedure**
5. **Observations**
6. **Precautions**
7. **Inference**
8. **Conclusion**

A practical report is graded based on _____.

Quality, precision, accuracy and fervency of carrying out the experiment

MODULE 4: LEARNERS' SUPPORT SERVICES

UNIT 1: DEFINITION AND PURPOSES OF LEARNERS' SUPPORT SERVICES

_____ is one critical component of an effective Open and Distance Learning environment.

Learners' support

There is a universally accepted definition of learners' support.

False

Garrison and Bayton (1987) define learners' support services as _____.

The resources that learners can access in order to carry out the learning process

According to Garrison (1989), support is concerned with a range of _____ resources to guide and facilitate the educational transaction.

Human and non-human

_____ defines students' support as the range of activities which complement the mass-produced materials used in ODL.

Tait (1995)

Learner support activities identified by Tait include:

1. **Tutoring**
2. **Counselling**
3. **Organisation of Study Centres**
4. **Interactive teaching through television and radio**
5. **Other activities supporting individual or group learning**

Modern learner support has expanded to include:

1. **Online tutorials**
2. **Virtual classrooms**
3. **Learning Management Systems**
4. **Mobile learning applications**
5. **Discussion forums**
6. **Video conferencing**
7. **Digital library services**

SAIDE (1999) defines learners' support as the entire range of methods and strategies employed in the presentation and delivery of courses aimed at _____.

Assisting and enabling learners to comprehend fully, assimilate and master the skills

09163490176

and knowledge needed to achieve success in their studies

According to Simpson (2002), learners' support includes all measures beyond _____ that support students throughout their learning process.

The production of study materials

Simpson (2002) divides learner support into:

1. **Academic support**
2. **Non-academic support**

Academic support includes:

1. **Defining the course territory**
2. **Explaining concepts**
3. **Explaining course content**
4. **Providing formal and informal feedback**
5. **Developing learning skills such as literacy and numeracy**
6. **Monitoring students' progress**
7. **Enriching learning experiences beyond the prescribed course**

Non-academic support includes:

1. **Providing information and advice**
2. **Offering counselling services**
3. **Assisting students in solving administrative problems**
4. **Advocating for students' welfare**
5. **Writing references where necessary**
6. **Organising learner support services**

Learner support services extend beyond _____.

Providing study materials

Examples of learner support services available to NOUN students include:

1. **Facilitation**
2. **Counselling**
3. **Access to the e-Library**
4. **ICT support**
5. **Examination information**
6. **Project supervision**
7. **Complaints resolution**

According to Tait (2000), the functions of learner support services are grouped into:

1. **Cognitive function**
2. **Affective function**
3. **Systemic function**

_____ support facilitates learning through the mediation of course materials and learning resources for individual settings.

Cognitive

Cognitive support focuses on helping learners _____.

Understand, acquire and apply knowledge and skills effectively

09163490176

Examples of cognitive support include:

1. **Self-instructional materials**
2. **Facilitation sessions**
3. **Academic tutorials**
4. **Feedback on Tutor-Marked Assignments**
5. **Electronic learning platforms**
6. **Digital libraries**
7. **Interaction with course facilitators**

Cognitive support helps learners clarify difficult concepts and improve _____.

Academic performance

_____ services provide an environment that supports students, creates learning communities and enhances learners' self-esteem.

Affective

Affective support focuses on learners':

1. **Emotional well-being**
2. **Confidence**
3. **Motivation**

Affective support helps minimise:

1. **Loneliness**
2. **Anxiety**
3. **Lack of motivation**

Examples of affective support include:

1. **Encouragement**
2. **Counselling**
3. **Mentoring**
4. **Interaction with facilitators**
5. **Interaction with fellow learners**

Other forms of affective support include:

1. **Orientation programmes**
2. **Academic advising**
3. **Facilitation sessions**
4. **Peer learning groups**
5. **Online discussion forums**

Affective support strengthens learners' confidence and _____.

Emotional resilience

Affective support reduces the likelihood of _____.

Withdrawal

_____ support establishes administrative processes and information management systems that are effective, transparent and learner-friendly.

Systemic

Systemic support ensures learners can access institutional services from _____.

09163490176

Admission to graduation

Systemic support includes:

1. **Admission processing**
2. **Course registration**
3. **Payment of fees**
4. **Access to examination information**
5. **Results processing**
6. **Graduation procedures**
7. **Communication of institutional updates**

Technological systemic support enables access to:

1. **Online learning platforms**
2. **Digital libraries**
3. **Student portals**
4. **Electronic resources**

NOUN online platforms mentioned include:

1. **Student Portal**
2. **Learning Content Management System (LCMS)**
3. **e-Library**

NOUN online platforms enable students to:

1. **Register courses**
2. **Submit Tutor-Marked Assignments**
3. **Check examination timetables**
4. **Check results**
5. **Communicate with facilitators**
6. **Access learning resources**

An effective systemic support system enhances:

1. **Institutional efficiency**
2. **Learners' satisfaction**
3. **Student retention**
4. **Successful completion of academic programmes**

Learner support services help learners overcome:

1. **Academic challenges**
2. **Administrative challenges**
3. **Technological challenges**
4. **Personal challenges**

For learners, support services:

1. **Improve access to learning resources**
2. **Provide timely academic guidance**
3. **Enhance confidence and motivation**
4. **Reduce feelings of isolation**
5. **Increase the likelihood of programme completion**

09163490176

For the University, learner support services contribute to:

1. **Improved student retention**
2. **Higher completion rates**
3. **Better learner satisfaction**
4. **Enhanced institutional quality**

The University is responsible for _____.

Providing accessible, responsive and quality support services

Learners are expected to:

1. **Attend facilitation sessions**
2. **Consult facilitators when necessary**
3. **Access learning resources**
4. **Meet deadlines**
5. **Comply with institutional regulations**
6. **Participate actively in their learning**

Learner support services in NOUN are coordinated through the _____.

Directorate of Learner Support Services (DLSS)

The DLSS works in collaboration with _____ across the country.

Study Centres

The DLSS coordinates:

1. **Learner orientation programmes**
2. **Facilitation activities**
3. **Counselling services**
4. **Learner enquiries**
5. **Study Centre administration**
6. **Other learner support activities**

Which of the following is NOT one of the functions of learner support services identified by Tait: Cognitive, Affective, Systemic or Financial?

Financial function

The DLSS is responsible for coordinating support activities such as orientation, counselling and facilitation.

True

UNIT 2: TYPES OF LEARNERS' SUPPORT SERVICES

According to Rumajogee (2002) and Nonyongo (2002), learner support services are broadly classified into _____ categories.

Three

The three major categories of learner support services are:

1. **Teaching and Learning Services**
2. **Social and Personal Support Services**
3. **Information Support Services**

These categories should be viewed as completely isolated services.

False

09163490176

Learner support categories work together as _____ services.

Complementary

At NOUN, learner support services are coordinated through:

1. **Directorate of Learner Support Services**
2. **Study Centres**
3. **Facilitators**
4. **Counsellors**
5. **ICT personnel**
6. **Librarians**
7. **Other academic and administrative units**

Teaching and learning services form the _____ of learner support in ODL.

Core

Teaching and learning services directly facilitate _____.

The teaching and learning process

Teaching and learning services provide:

1. **Academic guidance**
2. **Learning resources**
3. **Instructional support**

Examples of teaching and learning support services include:

1. **Tutorials and facilitation**
2. **Academic advising**
3. **Assignment marking and feedback**
4. **Orientation**
5. **Examination administration**
6. **Provision of learning materials**

Other teaching and learning activities identified in the material include:

1. **Pre-course registration and counselling services**
2. **Pre-course study-skills training**
3. **Administration of examinations**
4. **Provision of audio and/or video tapes**
5. **Telematics**
6. **Supply of newspapers**

At NOUN, teaching and learning support is delivered through:

1. **Study Centres**
2. **Facilitators**
3. **Learning Management System**
4. **Student Portal**
5. **e-Library**
6. **Other digital learning platforms**

_____ support is geared towards the academic life of the student.

Academic/Tutorial Support

09163490176

Originally, academic and tutorial support was mainly provided through _____.

Tutors at local Study Centres

Today, academic/tutorial support combines _____ and _____.

Face-to-face tutorials and web-based tutorials/online learning platforms

According to Lee (2003), academic support focuses on facilitating _____ and increasing interactivity.

Collaborative learning

Academic/tutorial support enables learners to:

1. **Seek clarification on difficult concepts**
2. **Receive guidance on course requirements**
3. **Participate in discussions**
4. **Obtain constructive feedback on assignments**
5. **Interact with facilitators and fellow learners**

Academic support also includes guidance on:

1. **Study skills**
2. **Examination preparation**
3. **Assignment writing**
4. **Effective use of the e-Library**
5. **Effective use of LCMS**

Attending a facilitation session is an example of _____.

Academic/Tutorial Support

Receiving feedback on a Tutor-Marked Assignment is an example of _____.

Academic/Tutorial Support

Social and personal support services address learners' _____ needs.

Emotional, social and personal

Social and personal support services include:

1. **Pre-course registration and counselling**
2. **Internet and e-mail support**
3. **Peer support/study groups**
4. **Career guidance**
5. **Disabilities support**
6. **Minorities support**
7. **Adult learners' support**
8. **Multicultural education coordination**
9. **Social events**

Social and personal support promotes learners' _____.

Personal well-being, social interaction and successful adjustment to the ODL environment

Social and personal support services help learners:

1. **Build relationships with fellow students**
2. **Access counselling**

09163490176

3. **Receive career guidance**
4. **Obtain specialised assistance**
5. **Remain motivated and connected**

Social and personal services promote _____ by ensuring learners from different backgrounds and abilities have equal opportunities to participate.

Inclusion

At NOUN, social and personal support is provided through:

1. **Study Centres**
2. **Learner counsellors**
3. **Facilitators**
4. **Peer learning groups**
5. **Student engagement activities**

Participating in a study group is an example of _____.

Social and Personal Support

Seeking career guidance is an example of _____.

Social and Personal Support

According to Chattopadhyay (2014), learners should be provided necessary information _____ admission to enable them make appropriate decisions.

Prior to

Information support services include:

1. **Information on fees and financial support**
2. **Information on administrative procedures and regulations**
3. **Information on registration and admission**
4. **Access to information technologies**
5. **Record management**
6. **Book services**
7. **Provision of personal timetables**
8. **Career guidance**

Information support should be:

1. **Timely**
2. **Accurate**
3. **Accessible**

Information support helps learners understand:

1. **Institutional policies**
2. **Academic regulations**
3. **Registration procedures**
4. **Examination schedules**
5. **Graduation requirements**

Reliable information enables learners to make _____.

Informed decisions

_____ support involves admissions, registrations, course scheduling, student records and

09163490176

financial transactions.

Administrative support

Most administrative support activities in universities today are _____.

Web-based

Poorly planned administrative support can lead to _____.

Frustration

_____ support involves monitoring the efficient operation of delivery media and offering technical assistance to learners.

Technical support

_____ support is essential for the attainment of academic excellence in distance education.

Library support

Library support gives distance learners access to _____.

Academic resources needed for teaching, learning and research

Counselling support includes _____ and _____.

Guidance and advising

Counselling support commonly focuses on:

1. **Academic concerns**
2. **Career advising**

Counselling support also addresses ways to improve:

1. **Communication skills**
2. **Interactivity**

Academic counselling helps learners understand matters relating to:

1. **Curriculum**
2. **Course contents**
3. **Academic administration**
4. **Academic processes**

Academic counselling represents the _____ learner support service usually provided at Study Centres.

Core

Which support service primarily provides information on admission, registration and academic regulations?

Information Support Services

Tutorial marking and feedback is classified under _____.

Teaching and Learning Services

Library support services help distance learners access academic resources needed to support teaching, learning and research.

True

MODULE 4: LEARNERS' SUPPORT SERVICES

UNIT 3: SOURCES OF LEARNERS' SUPPORT SERVICES

Learners' support services are delivered through different _____ of an Open and Distance

09163490176

Learning institution.

Units

Learners' support services assist students from _____ to _____.

Admission to graduation

Learner support units provide:

1. **Academic support**
2. **Administrative support**
3. **Technological support**
4. **Information support**
5. **Counselling services**

In NOUN, learners' support services are provided through:

1. **Study Centres**
2. **Directorates**
3. **Faculties**
4. **Departments**
5. **Registry**
6. **Library**

The primary source of learners' support services in NOUN is the _____.

Study Centre

Study Centres form part of the _____ structure of an open university.

Decentralised

Study Centres are established to provide _____ learners' support services.

Extensive, modern and efficient

Contact sessions at Study Centres are expected to assist students both _____ and _____.

Academically and personally

The Study Centre provides a common forum where learners can _____.

Interact with one another

Under normal circumstances, a NOUN Study Centre is headed by a senior _____ staff member.

Academic

A Study Centre may be headed by:

1. **Professor**
2. **Associate Professor**
3. **Senior Lecturer**

Some Study Centres may also be headed by senior non-academic officers such as:

1. **Chief Counsellors**
2. **Deputy Registrars**

The number of staff in a Study Centre is largely determined by the _____.

Student population

Personnel found at Study Centres include:

1. **Director**

09163490176

2. **Counsellors**
3. **Administrative officers**
4. **Accountants**
5. **ICT staff**
6. **Clerical officers**
7. **Cleaners**

Study Centre learner support activities can broadly be classified into _____ and _____ services.

Academic and non-academic

Prospective students are expected to visit Study Centres for enquiries about the _____ process.

Admission

During the pre-admission process, prospective students are guided mainly by _____ and _____.

Counsellors and administrative officers

Counsellors may guide prospective students towards programmes that suit their _____.

Basic qualifications

Before admission, prospective students are provided information about:

1. **Admission requirements**
2. **Programme options**
3. **Fees**
4. **Course demands and study expectations**

Pre-admission guidance helps prospective students make _____ decisions.

Informed

The payment of fees marks the commencement of a student's formal _____.

Registration

The three types of fees identified in the material are:

1. **Compulsory fees**
2. **Course registration fees**
3. **Examination fees**

Compulsory fees may include:

1. **Orientation and matriculation fees**
2. **Library fees**
3. **Laboratory fees**

Course registration fees are determined by the _____.

Course units

The minimum credit load a student can register for is _____.

10 credit units

The examination fee stated for an undergraduate student is _____ per course.

N1,500

The examination fee stated for a postgraduate student is _____ per course.

09163490176

N2,000

Students may pay their fees in instalments provided all fees are completed before _____.

The end of the registration period

The registration period usually lasts between _____.

Six and eight weeks

Until a student pays the examination fees, _____ will not be made available to the student.

Tutor-Marked Assignments

Course registration is carried out through the _____.

Student Portal

After course registration, the student proceeds to _____ registration.

Examination

Course and examination registration forms are printed in _____.

Triplicate

At the end of registration, the student's copy is endorsed by the _____.

Counsellor

The endorsed registration form may serve as proof for collecting available _____.

Print course materials

Course materials unavailable in print can be accessed electronically through the university's _____.

Courseware

Registration formally establishes a student's _____ in the university.

Academic status

Correct registration gives students access to:

1. **Course materials**
2. **Continuous assessment activities**
3. **Examination registration**
4. **Other academic support services**

The next major activities after registration are _____ and _____.

Orientation and matriculation

Orientation is designed to familiarise new students with _____.

Study Centre operations and the University

During orientation, students receive talks from units such as:

1. **Director's Office**
2. **Counselling Unit**
3. **Registry**
4. **Directorate of Media and Information**
5. **Directorate of Information and Communication Technology**
6. **Accounts**
7. **Library**

Orientation informs students about available services and _____ whenever assistance is required.

09163490176

Where and whom to approach

Orientation is conducted simultaneously across _____.

All Study Centres in the country

Matriculation usually takes place about _____ after orientation.

One week

During matriculation, new students take the _____.

Matriculation oath

After taking the matriculation oath, learners are formally admitted as _____.

Students of the National Open University of Nigeria

_____ is the period when students have interaction with university-appointed facilitators to assist in learning or content digestion.

Facilitation

Face-to-face facilitation for a course takes place when at least _____ students are registered for the course at a Study Centre.

50 students

A facilitation class may be divided into two when there are more than _____ students.

200 students

A 2-unit course is allocated _____ hours of facilitation.

8 hours

A 3-unit course is allocated _____ hours of facilitation.

12 hours

A 4-unit course is allocated _____ hours of facilitation.

16 hours

Facilitation differs from a conventional lecture because facilitation focuses on:

1. **Guiding students**
2. **Clarifying difficult concepts**
3. **Encouraging discussion**
4. **Answering questions**
5. **Supporting independent learning**

Students are expected to study their course materials _____ attending facilitation sessions.

Before

There is hardly any NOUN Study Centre without at least one _____.

Counsellor

Some Study Centres have about _____ counsellors depending on student population.

Four or five

NOUN counsellors are graduates of _____.

Guidance and Counselling

Counsellors provide:

1. **Academic counselling**
2. **Psychological counselling**

Counselling services promote:

09163490176

1. **Academic success**
2. **Personal well-being**
3. **Informed decision-making**

Study Centres organise field-related exercises such as:

1. **Teaching practice**
2. **Practicum**
3. **Field trips**
4. **Seminars**
5. **SIWES**
6. **Science practicals**

Where laboratory facilities are unavailable, the Study Centre Director may collaborate with _____.

Nearby tertiary institutions

Study Centres coordinate field work by:

1. **Providing relevant information**
2. **Assigning supervisors where necessary**
3. **Monitoring participation**
4. **Ensuring reports and assessment requirements are completed**

Field work enables students to apply _____ in practical settings.

Classroom knowledge

Some Study Centres have physical libraries, some have e-libraries, while some may have _____.

No library at all

Because of the nature of NOUN, greater emphasis is placed on the _____.

e-Library

Study Centre libraries may provide:

1. **Past students' research projects**
2. **Textbooks**
3. **Journals**
4. **Reference materials**
5. **Electronic resources**

Past research projects can serve as _____ for students preparing their own research.

Useful guides

All examinations except Tutor-Marked/Computer-Marked Assignments are conducted at _____.

Study Centres

The two types of examinations held every semester are:

1. **e-Examination**
2. **Pen-on-Paper examination**

e-Examination is taken by _____ level students.

100 and 200

09163490176

All _____ courses across all levels, including postgraduate programmes, are taken through e-Examination.

General Studies (GST)

Pen-on-Paper examinations are taken by students offering courses from _____ levels.

300 to 800

The planning and coordination of examination activities at the Study Centre are the responsibility of the _____.

Director of the Study Centre

Study Centre examination responsibilities include:

1. **Preparing examination venues**
2. **Ensuring compliance with examination regulations**
3. **Providing technical support**
4. **Providing administrative support**
5. **Creating a conducive examination environment**

Cases of examination misconduct are first considered by the _____ at the Study Centre.

Examination Misconduct Panel

Recommendations from the Study Centre Examination Misconduct Panel are forwarded to the _____.

University Examination Misconduct Committee

Final approval of disciplinary recommendations is given by the _____.

University Senate

Other administrative matters handled by Study Centres include:

1. **Deferment of studies**
2. **Change of programme**
3. **Correction of personal records**
4. **Processing of complaints**
5. **Collection of official documents**
6. **Communication with relevant University departments**

The Directorate of Information Communication Technology provides _____ support.

Technological

At least one _____ staff member is available in every Study Centre.

ICT

ICT officers serve as the central point of contact for help relating to _____ services.

Information technology

ICT support staff assist students with:

1. **Passwords, accounts and portal access**
2. **Course registration**
3. **Examination registration**
4. **Computing advice and information**
5. **e-Examination administration**
6. **Personal computer support**

09163490176

7. **Training on ICT facilities**

The Directorate of ICT ensures that _____ are operational and accessible in Study Centres.

Computer laboratories

Communication tools provided through ICT include:

1. **Email services**
2. **Discussion forums**
3. **Webinars**
4. **Web conferencing**

ICT facilities enable learners to learn _____.

Anytime, anywhere and at their own pace

Regardless of the Study Centre attended, every student belongs to a _____ and _____.

Department and Faculty

If a student believes that a course score is inaccurate, the student may request a review by writing to the _____.

Dean of the Faculty

A request to the Dean is usually channelled through the _____.

Director of the Study Centre

Faculties and departments are responsible for developing and maintaining the _____ for academic programmes.

Curriculum

The curriculum indicates:

1. **Compulsory courses**
2. **Elective courses**
3. **Minimum credit load**
4. **Maximum credit load**

Other academic activities coordinated by Faculties and Departments include:

1. **Course development**
2. **Appointment of facilitators**
3. **Moderation of examination questions**
4. **Processing of results**
5. **Supervision of research projects**
6. **Approval of graduation requirements**

Faculties and Departments are responsible for maintaining _____ standards.

Academic

The role of the Registry in learners' support is largely _____.

Administrative

The Registry's support extends beyond a student's period of study to _____ and beyond.

Graduation

The Registry is responsible for maintaining official _____.

Student records

Major support services provided by the Registry include:

09163490176

1. **Issuance of admission letters**
2. **Issuance of introductory letters**
3. **Issuance of certificates**
4. **Processing and dispatch of academic transcripts**
5. **Management of academic records and official documentation**
6. **Processing approved administrative requests**

The provisional admission letter is signed by the _____.

Registrar

A student cannot proceed with registration without the _____.

Admission letter

The admission letter serves as official evidence that an applicant has been _____.

Offered admission into a programme of study

Introductory letters may be required for:

1. **Research**
2. **Scholarships**
3. **Visas**
4. **Exchange programmes**
5. **Conferences**
6. **Other academic engagements**

A request for an introductory letter is made to the Registrar through the _____.

Director of the Study Centre

Introductory letters confirm that an individual is a _____ student of the University.

Bona fide

A graduate's certificate is signed by:

1. **The Vice-Chancellor**
2. **The Registrar**

Certificates are processed and issued after approval by the _____.

University Senate

Certificates are usually distributed during the _____ ceremony.

Convocation

The university certificate serves as official evidence that a student has _____.

Successfully completed the prescribed programme and been awarded the appropriate qualification

An official record of a student's academic performance is called a _____.

Transcript

A transcript contains:

1. **Courses taken**
2. **Grades obtained**
3. **Credit units earned**
4. **Final qualification awarded**

Academic transcripts are processed after payment of the prescribed fees and _____.

09163490176

Verification of the graduate's records

The transcript is signed by the _____.

Deputy Registrar (Academics)

Academic transcripts are sent directly to the requesting institution or organisation to preserve their _____ and _____.

Authenticity and integrity

The three major support functions of the University Library are:

1. **Information access and retrieval**
2. **Supporting students to become information literate**
3. **Provision of a conducive environment for study**

The library provides access to:

1. **Books**
2. **Journals**
3. **Electronic databases**
4. **Reference materials**
5. **Conference papers**
6. **Theses**
7. **Other scholarly resources**

The University Library regularly requests recommended reading lists from _____ and _____.

Faculties and Departments

Library staff assist learners to locate, evaluate, organise and _____ information.

Use

Information literacy helps students to:

1. **Identify credible sources**
2. **Avoid plagiarism**
3. **Use appropriate referencing styles**
4. **Conduct independent research**

The library provides a quiet, comfortable and organised _____ for learning.

Study space

The Study Centre is the only source of learners' support services in NOUN.

False

Which University unit is primarily responsible for issuing academic transcripts?

Registry

Which unit provides support for online registration and e-examinations?

Directorate of Information Communication Technology

The University Library supports students by providing access to learning resources and study spaces.

True

Understanding the sources of learners' support services helps students know where to obtain _____ whenever challenges arise.

09163490176

Academic, administrative and technical assistance

UNIT 4: BENEFITS OF LEARNERS' SUPPORT SERVICES

Learners' support is one critical component of an effective _____ environment.

Open and Distance Learning

Learners' support services assist students:

1. **Academically**
2. **Administratively**
3. **Socially**

Learners' support services contribute significantly to students':

1. **Success**
2. **Persistence**
3. **Overall learning experience**

The three major benefits of learners' support services discussed are:

1. **Promotion of Academic Achievement**
2. **Mediation of Distance**
3. **Reduction of Drop-Out Rate**

One cause of high failure rates in ODL is that students study _____ most of the time.

Independently

According to Tshivhase (2008), factors contributing to low performance and poor pass rates at UNISA include:

1. **Lack of contact between lecturers and students**
2. **Absence of self-help study groups**

Farajollahi and Moenikia (2010) established a _____ relationship between learners' support services and academic achievement in distance education.

Positive and significant

Students who make greater use of support services tend to achieve _____ levels of academic success.

Higher

NOUN services that promote academic achievement include:

1. **Facilitation**
2. **Counselling**
3. **Library support**
4. **ICT assistance**
5. **Timely feedback on assessments**

Learner support services enable students to:

1. **Clarify difficult concepts**
2. **Improve study habits**
3. **Strengthen understanding of course materials**
4. **Overcome academic challenges**
5. **Improve overall performance**

Learners' support services enhance academic achievement by providing _____ needed to

09163490176

learn effectively.

Guidance, resources and assistance

The physical and psychological distance between learners and an ODL institution may result in feelings of _____.

Isolation

ODL students often study _____.

On their own

Distance learners may experience a limited sense of _____ and _____.

Connection and belonging

Learners' support services mediate distance by creating opportunities for interaction between:

1. **Students**
2. **Facilitators**
3. **The institution**

According to Tait (2003), distance and part-time learners require encouragement to build _____ and _____.

Confidence and self-esteem

Support services motivate learners to remain _____ with their studies.

Engaged

NOUN services that help mediate distance include:

1. **Facilitation sessions**
2. **Counselling**
3. **Online discussion platforms**
4. **Study Centre activities**
5. **Library services**
6. **ICT support**

Interaction with facilitators, university staff and fellow learners reduces feelings of _____.

Isolation

Learners' support services strengthen students' sense of _____ to the university community.

Belonging

Learners' support services bridge the gap between students and the university through:

1. **Communication**
2. **Interaction**
3. **A sense of belonging**

_____ is one of the major problems of Open and Distance Learning institutions.

Attrition

Attrition refers to _____.

The rate at which students discontinue or withdraw from their programmes before completion

ODL institutions generally experience _____ attrition rates than conventional campus-

09163490176

based institutions.

Higher

At the Open University of Malaysia, nearly _____% of new learners enrolled in their first semester did not re-register for the second semester.

30%

About _____% failed to re-register for the third semester.

10%

Between 2004 and 2008, Adewale and Inegbedion found that only _____ out of 439 students admitted into NOUN's MBA programme remained in the programme.

60

The attrition rate reported for the NOUN MBA programme was _____%.

86.3%

According to Bowa (2008), learner support reduces drop-out rates through:

1. **Student guidance and counselling**
2. **Tutor support**
3. **Effective administrative systems**
4. **Effective information systems**

Learners' support services strengthen students':

1. **Confidence**
2. **Self-esteem**
3. **Motivation**

Strengthening confidence, self-esteem and motivation encourages learners to _____.

Persist with their studies until graduation

Within NOUN, services that help prevent withdrawal include:

1. **Academic counselling**
2. **Facilitation**
3. **Prompt administrative support**
4. **Access to learning resources**
5. **Continuous communication**

Effective learners' support services reduce drop-out rates by providing timely _____ support.

Academic, administrative and emotional

A student who is experiencing academic difficulties can be encouraged to remain in the programme through _____.

Appropriate learner support services

Learners' support services promote academic achievement.

True

Learners' support services have no influence on students' academic achievement.

False

Effective learners' support services can contribute to reducing student drop-out rates.

True

09163490176

Learners' support services reduce feelings of isolation by _____.

Promoting interaction between learners and the institution

Which is a major benefit of learners' support services: increasing tuition fees, promoting academic achievement, reducing admission opportunities or limiting interaction?

Promoting academic achievement

Learners' support services improve academic performance by providing:

1. **Facilitation**
2. **Counselling**
3. **Library services**
4. **ICT support**
5. **Timely feedback**
6. **Academic guidance**

Two major ways learner support services reduce drop-out rates are:

1. **Providing academic guidance and counselling that help students overcome learning difficulties and remain motivated**
2. **Providing effective administrative and information services that reduce frustration and encourage programme completion**

The three major outcomes of effective learner support services are:

1. **Improved academic achievement**
2. **Reduced effects of distance and isolation**
3. **Reduced student drop-out rates**

Together, learners' support services increase the likelihood of successful _____.

Programme completion
